Sealy Junior High is changing up the way we do summer school. In the past, summer school has been a consequence for students who did not try in class and/or were unsuccessful on the STAAR test. At Sealy Junior High, our vision is to provide our community with the best middle school in the world. To do that, we live to be intentional with everything we do. After lots of discussion and collaboration with teachers, instructional coaches, parents and administrators, below is our new Summer Camp program.

We will be working with our current 6th and 7th-grade students that are identified by teachers that may have academic gaps in their reading and/or math. These students will be strategically placed in small groups with a dedicated teacher. The Summer Camp experience will be just that. We will provide our students a camp-like experience while preparing for the upcoming year. In education, we refer to this as "front-loading." We believe this will help our students succeed in the upcoming year.

We would like to offer you and your student this opportunity to participate in something special. Again, this is not a requirement but an educational opportunity for your child to help them in the upcoming year. If your child was unsuccessful in Math and/or Reading STAAR, this could serve in place of the HB4545 requirement.

We hope you will participate in this amazing event!
