Sec. 56.303. ADMINISTRATION OF PROGRAM. (a) The coordinating board shall administer the TEXAS grant program and shall adopt any rules necessary to implement the TEXAS grant program or this subchapter. The coordinating board shall consult with the student financial aid officers of eligible institutions in developing the rules.

(b) The coordinating board shall adopt rules to provide a TEXAS grant to an eligible student enrolled in an eligible institution in the most efficient manner possible.

(c) The total amount of TEXAS grants awarded may not exceed the amount available for the program from appropriations, gifts, grants, or other funds.

(d) From money appropriated by the legislature for the purposes of this subchapter, the coordinating board annually shall determine the allocation of money available for TEXAS grants among general

academic teaching institutions and other eligible institutions and shall distribute the money accordingly.

(d-1) In allocating among eligible institutions money available for initial TEXAS grants for an academic year, the coordinating board shall ensure that each of those institutions' proportional share of the total amount of money for initial grants that is allocated to eligible institutions under this section for that year does not, as a result of the number of students who establish eligibility at the institution for an initial grant under Section 56.3041(2)(A), change from the institution's proportional share of the total amount of money for initial grants that is allocated to those institutions under this section for the preceding academic year.

(e) In determining who should receive a TEXAS grant, the coordinating board and the eligible institutions shall give priority to awarding TEXAS grants to students who demonstrate the greatest financial need and whose expected family contribution, as determined according to the methodology used for federal student financial aid, does not exceed 60 percent of the average statewide amount of tuition and required fees described by Section 56.307(a). In giving priority based on financial need as required by this subsection to students who meet the requirements for the highest priority as provided by Subsection (f), an eligible institution shall determine financial need according to the relative expected family contribution of those students, beginning with students who have the lowest expected family contribution.

(f) Beginning with TEXAS grants awarded for the 2013-2014 academic year, in determining who should receive an initial TEXAS grant, each eligible institution, in addition to giving priority as provided by Subsection (e), shall give highest priority to students who meet the eligibility criteria described by Section 56.3041(2)(A). If there is money available in excess of the amount required to award an initial TEXAS grant to all students meeting those criteria, an eligible institution shall make awards to other students who meet the eligibility criteria described by Section 56.304(a)(2)(A), provided that the institution continues to give priority to students as provided by Subsection (e).

(2) a deficiency in the amount of the grant as established under Subsection (a) or (e), as applicable, to cover the full amount of tuition and required fees charged to the student by the institution.

(k) The legislature in an appropriations act shall account for tuition and required fees received under this section in a way that does not increase the general revenue appropriations to that institution.

In order to facilitate the removal of those barriers, the board, in consultation with one or more nonprofit entities with experience providing the services on a statewide basis, may provide necessary and desirable services related to financial aid services, including cooperative awareness efforts with appropriate educational and civic associations designed to disseminate postsecondary education awareness information, including information regarding available grant and loan programs and the prevention of student loan default.

(d) The Texas Higher Education Coordinating Board has only the powers expressly provided by law or necessarily implied from an express grant of power. Any function or power not expressly granted to the board by this code or other law in regard to the administration, organization, control, management, jurisdiction, or governance of an institution of higher education is reserved to and shall be performed by the governing board of the institution, the applicable system administration, or the institution of higher

Sec. 61.0331. NEGOTIATED RULEMAKING REQUIRED. The board shall engage institutions of higher education in a negotiated rulemaking process as described by Chapter 2008, Government Code, when adopting a policy, procedure, or rule relating to:

(1) an admission policy regarding the common admission application under Section 51.762, a uniform admission policy under Section 51.807, graduate and professional admissions under Section 51.843, or the transfer of credit under Section 61.827;

(2) the allocation or distribution of funds, including financial aid or other trusteed funds under Section 61.07761;

(3) the reevaluation of data requests under Section 51.406;
or

(4) compliance monitoring under Section 61.035.

Added by Acts 2013, 83rd Leg., R.S., Ch. 1155 (S.B. 215), Sec. 29, eff. September 1, 2013.

Sec. 61.034. EFFECTIVE USE OF TECHNOLOGY. The board shall develop and implement a policy that requires the commissioner of higher education and the staff of the board to research and propose appropriate technological solutions to improve the ability of the agency to perform its mission. The technological solutions must include measures to ensure that the public is able to easily find information about the board through the Internet and that persons who have a reason to use the board's services are able to use the Internet to interact with the board and to access any services that can be provided effectively through the Internet. The policy shall also ensure that proposed technological solutions are cost-effective and developed through the board's planning processes.

Added by Acts 2003, 78th Leg., ch. 820, Sec. 11, eff. Sept. 1, 2003.

Sec. 61.035. COMPLIANCE MONITORING. (a) The board, in consultation with affected stakeholders, shall adopt rules to establish an agency-wide, risk-based compliance monitoring function for:

(1) funds allocated by the board to institutions of higher education, private or independent institutions of higher education, and other entities, including student financial assistance funds, academic support grants, and any other grants, to ensure that those funds are distributed in accordance with applicable law and board rule; and

(2) data reported by institutions of higher education to the board and used by the board for funding or policymaking decisions, including data used for formula funding allocations, to ensure the data is reported accurately.

(b) For purposes of this section, student financial assistance includes grants, scholarships, loans, and work-study.

(c) After considering potential risks and the board's resources, the board shall review a reasonable portion of the total funds allocated by the board and of data reported to the board. The board shall use various levels of monitoring, according to risk, ranging from checking reported data for errors and inconsistencies to conducting comprehensive audits, including site visits.

(d) In developing the board's risk-based approach to compliance monitoring under this section, the board shall consider the following factors relating to an institution of higher education or private or independent institution of higher education:

(1) the amount of student financial assistance or grant funds allocated to the institution by the board;

(2) whether the institution is required to obtain and submit an independent audit;

(3) the institution's internal controls;

(4) the length of time since the institution's last desk review or site visit;

(5) past misuse of funds or misreported data by the institution;

(6) in regard to data verification, whether the data reported to the board by the institution is used for determining funding allocations; and

(7) other factors as considered appropriate by the board.

(e) The board shall train compliance monitoring staff to ensure

that the staff has the ability to monitor both funds compliance and data reporting accuracy. Program staff in other board divisions who conduct limited monitoring and contract administration shall coordinate with the compliance monitoring function to identify risks and avoid duplication.

(f) If the board determines through its compliance monitoring function that funds awarded by the board to an institution of higher education or private or independent institution of higher education have been misused or misallocated by the institution, the board shall present its determination to the institution's governing board, or to the institution's chief executive officer if the institution is a private or independent institution of higher education, and provide an opportunity for a response from the institution. Following the opportunity for response, the board shall report its determination and the institution's response, together with any recommendations, to the institution's governing board or chief executive officer, as applicable, the governor, and the Legislative Budget Board.

(g) If the board determines through its compliance monitoring function that an institution of higher education has included errors in the institution's data reported for formula funding, the board:

(1) for a public junior college, may adjust the appropriations made to the college for a fiscal year as necessary to account for the corrected data; and

(2) for a general academic teaching institution, a medical and dental unit, or a public technical institute, shall calculate a revised appropriation amount for the applicable fiscal year based on the corrected data and report that revised amount to the governor and Legislative Budget Board for consideration as the basis for budget execution or other appropriate action, and to the comptroller.

(h) In conducting the compliance monitoring function under this section, the board may partner with internal audit offices at institutions of higher education and private or independent institutions of higher education, as institutional resources allow, to examine the institutions' use of funds allocated by, and data reported to, the board. To avoid duplication of effort and assist the board in identifying risk, an internal auditor at an institution shall notify the board of any audits conducted by the auditor involving funds administered by the board or data reported to the board. The board by rule may prescribe the timing and format of the notification required by this subsection. The board by rule shall

require a private or independent institution of higher education to provide to the board the institution's external audit involving funds administered by the board. The private or independent institution of higher education's external audit must comply with the board's rules for auditing those funds.

(i) The board may seek technical assistance from the state auditor in establishing the compliance monitoring function under this section. The state auditor may periodically audit the board's compliance monitoring function as the state auditor considers appropriate.

(j) In this section:

(1) "Desk review" means an administrative review by the board that is based on information reported by an institution of higher education or private or independent institution of higher education, including supplemental information required by the board for the purposes of compliance monitoring, except that the term does not include information or accompanying notes gathered by the board during a site visit.

(2) "Site visit" means an announced or unannounced in-person visit by a representative of the board to an institution of higher education or private or independent institution of higher education for the purposes of compliance monitoring.

(a-3) Not later than December 1 of each even-numbered year, the board shall prepare and deliver a report to the governor, the lieutenant governor, the speaker of the house of representatives, and the standing committees of the senate and house of representatives with primary jurisdiction over higher education. In the report, the board shall assess the state's progress in meeting the goals established in the long-range master plan developed under Subsection (a-1) and recommend legislative action, including statutory or funding changes, to assist the state in meeting those goals. Sec. 61.0512. BOARD APPROVAL OF ACADEMIC PROGRAMS. (a) A new degree or certificate program may be added at an institution of higher education only with specific prior approval of the board. A new degree or certificate program is considered approved if the board has not completed a review under this section and acted to approve or disapprove the proposed program before the first anniversary of the date on which an institution of higher education submits a completed application for approval to the board. The board may not summarily disapprove a program without completing the review required by this section. The board shall specify by rule the elements that constitute a completed application and shall make an administrative determination of the completeness of the application not later than the fifth business day after receiving the application. A request for additional information in support of an application that has been determined administratively complete does not toll the period within which the application is considered approved under this section.

(b) At the time an institution of higher education begins preliminary planning for a new degree program, the institution must notify the board before the institution may carry out that planning.

(c) The board shall review each degree or certificate program offered by an institution of higher education at the time the institution requests to implement a new program to ensure that the program:

(1) is needed by the state and the local community and does not unnecessarily duplicate programs offered by other institutions of higher education or private or independent institutions of higher education;

(2) has adequate financing from legislative appropriation, funds allocated by the board, or funds from other sources;

(3) has necessary faculty and other resources to ensure student success; and

(4) meets academic standards specified by law or prescribed by board rule, including rules adopted by the board for purposes of this section, or workforce standards established by the Texas Workforce Investment Council.

(d) The board may review the number of degrees or certificates awarded through a degree or certificate program every four years or more frequently, at the board's discretion.

(e) The board shall review each degree or certificate program offered by an institution of higher education at least every 10 years after a new program is established using the criteria prescribed by Subsection (c).

(f) The board may not order the consolidation or elimination of any degree or certificate program offered by an institution of higher education but may, based on the board's review under Subsections (d) and (e), recommend such action to an institution's governing board. If an institution's governing board does not accept recommendations to consolidate or eliminate a degree or certificate program, the university system or, where a system does not exist, the institution, must identify the programs recommended for consolidation or elimination on the next legislative appropriations request submitted by the system or institution.

(g) An institution of higher education may offer off-campus courses for credit within the state or distance learning courses only with specific prior approval of the board. An institution must certify to the board that a course offered for credit outside the

state meets the board's academic criteria. An institution shall include the certification in submitting any other reports required by the board.

(h) In approving a degree or certificate program under this section, the board:

(1) for a doctoral program, may not consider undergraduate graduation or persistence rates; and

(2) for a baccalaureate degree program proposed to be offered by a public junior college previously authorized by the board to offer baccalaureate degree programs under Section 130.0012:

(A) shall approve the degree program within 60 days after the date the board receives notice of the degree program if the degree program:

(i) is approved by the governing board of the junior college district; and

(ii) is not an engineering program; and

(B) is considered to have approved the degree program after the date described by Paragraph (A) if the conditions of that paragraph are satisfied.

Sec. 61.05121. STATE AUTHORIZATION RECIPROCITY AGREEMENT. (a) The board on behalf of the state may enter into a state authorization reciprocity agreement among states, districts, and territories regarding the delivery of postsecondary distance education that establishes comparable standards for the provision of distance education by public or private degree-granting postsecondary educational institutions in each of the states, districts, or territories covered by the agreement to students of the other states, districts, or territories covered under the agreement. The board shall apply to an appropriate organization for that purpose.

(b) The board shall administer an agreement entered into under this section, including by:

(1) establishing an application and approval process for a

degree-granting postsecondary educational institution with its principal campus located in this state to participate under the agreement; and

(2) maintaining a dispute resolution procedure for complaints regarding participating postsecondary educational institutions located in this state.

(c) If the board obtains evidence that a public or private postsecondary educational institution established outside this state that is providing courses within this state under a state authorization reciprocity agreement established under this section is in apparent violation of the agreement or of this code or rules adopted under this section, the board shall take appropriate action to terminate the institution's operation within this state.

(d) The board shall adopt rules to administer this section.

(a) To earn a baccalaureate degree, a student may not be required by a general academic teaching institution to complete more than the minimum number of semester credit hours required for the degree by the Southern Association of Colleges and Schools or its successor unless the institution determines that there is a compelling academic reason for requiring completion of additional semester credit hours for the degree.

(b) The board may review one or more of an institution's baccalaureate degree programs to ensure compliance with this section.

(c) Subsection (a) does not apply to a baccalaureate degree awarded by an institution to a student enrolled in the institution before the 2008 fall semester. (b) The board may review one or more of an institution's associate degree programs to ensure compliance with this section.

(c) Subsection (a) does not apply to an associate degree awarded by an institution to a student enrolled in the institution before the 2015 fall semester. (c) The study must compare the academic performance, retention rates, and graduation rates at institutions of higher education of students who complete a lower-division course at an institution and students who receive credit for that course for a score of three or more on an Advanced Placement examination, disaggregated by score.

(d) Each institution of higher education shall submit to the board any data requested by the board as necessary for the board to

carry out its duties under this section.

(e) Not later than January 1, 2017, the board shall submit to the governor, the lieutenant governor, the speaker of the house of representatives, and the standing legislative committees with primary jurisdiction over higher education a progress report that examines the academic performance at institutions of higher education of students who received undergraduate course credit for a score of three on one or more Advanced Placement examinations and any recommendations for legislative or administrative action.

The list for each institution must also specifically identify any course included in the common course numbering system under Section 61.832 that has been added to or removed from the institution's list for the current academic year, and the board shall distribute that information as necessary to accomplish the purposes of Section 61.832.

(b) After the comprehensive list of courses is submitted by a governing board under Subsection (a), the governing board shall

submit on dates designated by the board any changes in the comprehensive list of courses to be offered, including any changes relating to offering a course included in the common course numbering system.

(b-1) Each governing board must certify at the time of submission under Subsection (a) that the institution does not:

(1) prohibit the acceptance of transfer credit based solely on the accreditation of the sending institution; or

(2) include language in any materials published by the institution, whether in printed or electronic form, suggesting that such a prohibition exists.

Any proposed statute which would establish an additional institution of higher education, except a public junior college, shall be submitted, either prior to introduction or by the standing committee considering the proposed statute, to the board for its opinion as to the state's need for the institution. The board shall report its findings to the governor and the legislature. A recommendation that an additional institution is needed shall require the favorable vote of at least two-thirds of the members of the board. A recommendation of the board shall not be considered a condition precedent to the introduction or passage of any proposed statute.

Sec. 61.057. PROMOTION OF TEACHING EXCELLENCE. To achieve excellence in the teaching of students at institutions and agencies of higher education, the board shall:

(1) develop and recommend:

(A) minimum faculty compensation plans, basic increment programs, and incentive salary increases;

(B) minimum standards for faculty appointment, advancement, promotion, and retirement;

(C) general policies for faculty teaching loads, and division of faculty time between teaching, research, administrative duties, and special assignments;

(D) faculty improvement programs, including a plan for sabbatical leaves, appropriate for the junior and senior colleges and universities, respectively; and

(E) minimum standards for academic freedom, academic responsibility, and tenure;

(2) pursue vigorously and continuously a goal of having all college and university academic classes taught by persons holding the minimum of an earned master's degree or its equivalent in academic training, creative work, or professional accomplishment;

(3) explore, promote, and coordinate the use of educational television among institutions of higher education and encourage participation by public and private schools and private institutions of higher education in educational television;

(4) conduct, and encourage the institutions of higher education to conduct, research into new methods, materials, and techniques for improving the quality of instruction and for the maximum utilization of all available teaching techniques, devices, and resources, including but not limited to large classes, team teaching, programmed instruction, interlibrary exchanges, joint libraries, specially-designed facilities, visual aids, and other innovations that offer promise for superior teaching or for meeting the need for new faculty members to teach anticipated larger numbers of students; and

(5) assume initiative and leadership in providing through the institutions of higher education in the state those programs and offerings which will achieve the objectives set forth in Section 61.002 of this code.

(a) To assure efficient use of construction funds and the orderly development of physical plants to accommodate projected college student enrollments, the board shall carry out the duties prescribed by this section and Section 61.058 of this code.

(b) The board shall:

(1) determine formulas for space utilization in all educational and general buildings and facilities at institutions of higher education;

(2) devise and promulgate methods to assure maximum daily and year-round use of educational and general buildings and facilities, including but not limited to maximum scheduling of day and night classes and maximum summer school enrollment;

(3) consider plans for selective standards of admission when institutions of higher education approach capacity enrollment;

(4) require, and assist the public technical institutes, public senior colleges and universities, medical and dental units, and other agencies of higher education in developing long-range campus master plans for campus development;

(5) by rule adopt standards to guide the board's review of new construction and the repair and rehabilitation of all buildings and facilities regardless of proposed use; and

(6) ascertain that the board's standards and specifications for new construction, repair, and rehabilitation of all buildings and facilities are in accordance with Chapter 469, Government Code.

(c) The board in consultation with institutions of higher education shall develop space standards for new construction or other capital improvement projects at public senior colleges and universities and medical and dental units that address the differences in space requirements in teaching, research, and public service activities for those institutions. The standards developed under this subsection shall not be used to determine space needs for those projects related to clinical care facilities.

(d) The board may review purchases of improved real property added to an institution's educational and general buildings and facilities inventory to determine whether the property meets the standards adopted by the board for cost, efficiency, space need, and space use, but the purchase of the improved real property is not contingent on board review. Standards must be adopted by the board using the negotiated rulemaking procedures under Chapter 2008,

Government Code. If the property does not meet those standards, the board shall notify the governor, the lieutenant governor, the speaker of the house of representatives, the governing board of the applicable institution, and the Legislative Budget Board. This subsection does not impair the board's authority to collect data relating to the improved real property that is added each year to the educational and general buildings and facilities inventory of institutions of higher education.

(b) The board may review all construction, repair, or

rehabilitation of buildings and facilities at institutions of higher education to determine whether the construction, rehabilitation, or repair meets the standards adopted by board rule for cost, efficiency, space need, and space use, but the construction, rehabilitation, or repair is not contingent on board review. Standards must be adopted by the board using the negotiated rulemaking procedures under Chapter 2008, Government Code. Sec. 61.0581. POWERS UNAFFECTED BY CERTAIN CONSTITUTIONAL AMENDMENT. The powers of the board and the legislature, including the powers granted under Section 61.058 of this code, are not limited by the constitutional amendments proposed by H.J.R. No. 19, 68th Legislature, Regular Session, 1983, and adopted by the voters except to the extent those powers are specifically limited by those constitutional provisions.

Sec. 61.05821. CONDITION OF BUILDINGS AND FACILITIES; ANNUAL REPORT REQUIRED. Each institution of higher education, excluding each public junior college and excluding other agencies of higher education, annually shall report to the governing board of the institution information regarding the condition of the buildings and facilities of the institution, including information concerning deferred maintenance with respect to those buildings and facilities as defined by the board.

Added by Acts 2013, 83rd Leg., R.S., Ch. 1155 (S.B. 215), Sec. 41, eff. September 1, 2013.

Sec. 61.0583. AUDIT OF FACILITIES. (a) The board periodically shall conduct a comprehensive audit of all educational and general facilities on the campuses of public senior colleges and universities and the Texas State Technical College System to verify the accuracy of the facilities inventory for each of those institutions.

(b) The board shall verify the accuracy of the square footage reported in each institution's budget request in relation to the facilities inventory.

(c) The audit must include a periodic review of construction projects to confirm that:

(1) a project has received prior approval by the board if required by Section 61.058 of this code; and

(2) an approved project is completed as specified in the request to the board for approval of the project.

(d) The board shall report its findings concerning the audits conducted under this section to the Legislative Budget Board and the audited institutions.

Sec. 61.059. APPROPRIATIONS. (a) To finance a system of higher education and to secure an equitable distribution of state funds deemed to be available for higher education, the board shall perform the functions described in this section. Funding policies shall:

(1) allocate resources efficiently and provide incentives for programs of superior quality and for institutional diversity;

(2) provide incentives for supporting the five-year master plan developed and revised under Section 61.051;

(3) discourage unnecessary duplication of course offerings between institutions and unnecessary construction on any campus; and

(4) emphasize an alignment with education goals established by the board.

(b) The board shall devise, establish, and periodically review and revise formulas for the use of the governor and the Legislative Budget Board in making appropriations recommendations to the legislature for all institutions of higher education, including the funding of postsecondary vocational-technical programs. As a specific element of the periodic review, the board shall study and recommend changes in the funding formulas based on the role and mission statements of institutions of higher education. In carrying out its duties under this section, the board shall employ an ongoing process of committee review and expert testimony and analysis.

(b-1) A committee under Subsection (b) must be composed of representatives of a cross-section of institutions representing each

of the institutional groupings under the board's accountability system. The commissioner of higher education shall solicit recommendations for the committee's membership from the chancellor of each university system and from the president of each institution of higher education that is not a component of a university system. The chancellor of a university system shall recommend to the commissioner at least one institutional representative for each institutional grouping to which a component of the university system is assigned. The president of an institution of higher education that is not a component of a university system shall recommend to the commissioner at least one institutional representative for the institutional grouping to which the institution is assigned.

(c) Formulas for basic funding shall:

- (1) reflect the role and mission of each institution;
- (2) emphasize funding elements that directly support faculty;
- (3) reflect both fixed and variable elements of cost; and
- (4) incorporate, as the board considers appropriate, goals identified in the board's long-range statewide plan developed under Section 61.051.

(d) Not later than June 1 of every even-numbered calendar year, the board shall notify the governing boards and the chief administrative officers of the respective institutions of higher education and university systems, the governor, and the Legislative Budget Board of the formulas designated by the board to be used by the institutions in making appropriation requests for the next succeeding biennium and shall certify to the governor and the Legislative Budget Board that each institution has prepared its appropriation request in accordance with the designated formulas and in accordance with the uniform system of reporting provided in this chapter. The board shall furnish any other assistance to the governor and the Legislative Budget Board in the development of appropriations recommendations as either or both of them may request. However, nothing in this chapter shall prevent or prohibit the governor, the Legislative Budget Board, the board, or the governing board of any institution of higher education from requesting or recommending deviations from any applicable formula or formulas prescribed by the board and advancing reasons and arguments in support of them.

(e) The board shall present to the governor and to each

legislature a comprehensive summary and analysis of institutional appropriation requests, and for that purpose each institution's request must be submitted to the board at the same time at which the request is submitted to the Legislative Budget Board. Nothing in this subsection shall be construed as supplanting the duty, responsibility, and authority of an institution of higher education or the governing board thereof to express its appropriative needs directly to the legislature or any committee thereof.

(f) The board shall recommend to the governor and the Legislative Budget Board supplemental contingent appropriations to provide for increases in enrollment at the institutions of higher education. Contingent appropriations may be made directly to the institutions or to the board, as the legislature may direct in each biennial appropriations act. In the event the contingent appropriation is made to the board, the funds shall be allocated and distributed by the board to the institutions as it may determine, subject only to such limitations or conditions as the legislature may prescribe.

(g) The board shall recommend to the institutions, the governor, and the Legislative Budget Board tuition policies for public technical institutes, public junior colleges, public senior colleges and universities, medical and dental units, and other agencies of higher education and vocational and technical programs receiving support from state funds.

(h) The board shall distribute funds appropriated to the board for allocation for specified purposes under limitations prescribed by law and the rules and regulations of the board in conformity therewith, provided that no distribution or allocation may be made to any institution of higher education which has failed or refused to comply with any order of the board as long as that failure or refusal continues.

(i) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 1155, Sec. 62(9), eff. September 1, 2013.

(i-1) Repealed by Acts 2013, 83rd Leg., R.S., Ch. 1155, Sec. 62(9), eff. September 1, 2013.

(j) Funds appropriated to the coordinating board for vocational-technical education may be transferred by interagency contract between the two boards as required to carry out an effective and efficient transition of the administration of postsecondary vocational-technical education.

(k) The legislature shall promote flexibility in the use of funds appropriated to institutions of higher education by:

(1) appropriating base funding as a single amount that is unrestricted to use among the various funding elements of the formula used to determine base funding; and

(2) appropriating to institutions the unexpended balance of appropriations made for the preceding fiscal year.

(1)(1) Except as provided by Subdivision (2), the board may not include in any formula under this section funding based on the number of doctoral students who have a total of 100 or more semester credit hours of doctoral work at an institution of higher education.

(2) Notwithstanding Subdivision (1), the board may approve formula funding for semester credit hours in excess of 100, not to exceed 130 total semester credit hours, for a doctoral student if the institution:

(A) provides the board with substantial evidence that the particular field of study in which the student is enrolled requires a higher number of semester credit hours to maintain nationally competitive standards;

(B) provides the board with evidence that the student's program or research is likely to provide substantial benefit to medical or scientific advancement and that the program or research requires the additional semester credit hours; or

(C) provides the board with other compelling academic reasons that support the finding of an exception.

(3) The board shall report to the Legislative Budget Board, as part of its report on formula funding recommendations, a listing of the exceptions approved under Subdivision (2) and the associated costs in formula-based funding.

(m) For an institution that charges a reduced nonresident tuition rate under Section 54.0601, the board may not include in a formula under this section funding based on the number of nonresident students enrolled at the institution in excess of 10 percent of the total number of students enrolled at the institution.

(n) In the formula applicable to Texas A&M University--Texarkana for funding instruction and operations, the board shall include any semester credit hours taught through distance education to students enrolled at that university who reside in another state and:

(1) as permitted by Section 54.060(a), pay tuition at the

rate charged to residents of this state; and

(2) reside in a county in the other state that is contiguous to the county in which the university is located.

(o) In addition to the other funding recommendations required by this section, biennially the board shall determine the amount that the board considers appropriate for purposes of providing funding under Section 61.0596 in the following state fiscal biennium to carry out the purposes of that section and shall make recommendations to the governor and the Legislative Budget Board for funding those programs in that biennium. To the extent the board considers appropriate, the board may include in the formulas established under this section the funding to be provided under Section 61.0596.

(p) In its instruction and operations formula applicable to an institution of higher education, the board may not include any semester credit hours earned for dual course credit by a high school student for high school and college credit at the institution unless those credit hours are earned through any of the following:

(1) a course in the core curriculum of the institution providing course credit;

(2) a career and technical education course that applies to any certificate or associate's degree offered by the institution providing course credit; or

(3) a foreign language course.

(q) Subsection (p) does not apply to a course completed by a student as part of the early college education program established under Section 29.908.

Sec. 61.0592. FUNDING FOR COURSES PROVIDED DURING OFF-PEAK HOURS AT CERTAIN INSTITUTIONS. (a) The purposes of this section are:

(1) to ensure that student demand for courses is met; and
(2) to encourage the efficient use of existing instructional facilities while reducing the need for new instructional facilities.

(b) This section applies only to funding for a course provided by:

- (1) The University of Texas at Austin;
- (2) Texas A&M University; or
- (3) Texas Tech University.

(c) To carry out the purposes of this section, for each institution of higher education listed under Subsection (b), the board shall include in the formulas established under Section 61.059 funding in amounts sufficient to cover the institution's revenue loss resulting from any reduction in tuition rates under Section 54.061.

(d) In addition to the funding included under Subsection (c), in the formulas established under Section 61.059, as an incentive for the institutions to reduce tuition rates under Section 54.061, the board may include additional funding that represents a portion of the savings to the state resulting from the institution's efficient use of resources.

Added by Acts 2007, 80th Leg., R.S., Ch. 598 (H.B. 120), Sec. 1, eff. June 15, 2007.

Sec. 61.0593. STUDENT SUCCESS-BASED FUNDING RECOMMENDATIONS.

(a) The legislature finds that it is in the state's highest public interest to evaluate student achievement at institutions of higher education and to develop higher education funding policy based on that evaluation. Funding policies that promote postsecondary educational success based on objective indicators of relative performance, such as degree completion rates, are critical to maintaining the state's competitiveness in the national and global economy and supporting the general welfare of this state. Therefore, the purpose of this section is to ensure that institutions of higher education produce student outcomes that are directly aligned with the state's education goals and economic development needs.

(b) In this section:

(1) "At-risk student" means an undergraduate student of an institution of higher education:

(A) who has been awarded a grant under the federal Pell Grant program; or

(B) who, on the date the student initially enrolled in the institution:

(i) was 20 years of age or older;

(ii) had a score on the Scholastic Assessment Test (SAT) or the American College Test (ACT) that was less than the national mean score for students taking that test;

(iii) was enrolled as a part-time student; or

(iv) had not received a high school diploma but had received a high school equivalency certificate within the last six years.

(2) "Critical field" means a field of study designated as a critical field under Subsection (c).

(c) Except as otherwise provided under Subdivision (2), the fields of engineering, computer science, mathematics, physical science, allied health, nursing, and teaching certification in the field of science or mathematics are critical fields. Beginning September 1, 2012, the board, based on the board's determination of those fields of study in which the support and development of postsecondary education programs at the bachelor's degree level are most critically necessary for serving the needs of this state, by rule may:

(1) designate as a critical field a field of study that is not currently designated by this subsection or by the board as a

critical field; or

(2) remove a field of study from the list of fields currently designated by this subsection or by the board as critical fields.

(d) This subsection applies only to a general academic teaching institution other than a public state college. In devising its funding formulas and making its recommendations to the legislature relating to institutional appropriations of funds under Section 61.059 for institutions to which this subsection applies, the board, in the manner and to the extent the board considers appropriate and in consultation with those institutions, shall incorporate the consideration of undergraduate student success measures achieved during the preceding state fiscal biennium by each of the institutions. At the time the board makes those recommendations, the board shall also make recommendations for incorporating the success measures, to the extent the board considers appropriate in consultation with those institutions, into the distribution of any incentive funds available for those institutions, including performance incentive funds under Subchapter D, Chapter 62. The board's recommendations must provide alternative approaches for applying the success measures and must compare the effects on funding of applying the success measures within the formula for base funding to applying the success measures as a separate formula. The success measures considered by the board under this subsection may include:

(1) the total number of bachelor's degrees awarded by the institution;

(2) the total number of bachelor's degrees in critical fields awarded by the institution;

(3) the total number of bachelor's degrees awarded by the institution to at-risk students; and

(4) as determined by the board, the six-year graduation rate of undergraduate students of the institution who initially enrolled in the institution in the fall semester immediately following their graduation from a public high school in this state as compared to the six-year graduation rate predicted for those students based on the composition of the institution's student body.

(e) Notwithstanding Subsection (d):

(1) not more than 10 percent of the total amount of general revenue appropriations of base funds for undergraduate education recommended by the board for all institutions to which Subsection (d)

applies for a state fiscal biennium may be based on student success measures; and

(2) the board's recommendation for base funding for undergraduate education based on student success measures does not reduce or otherwise affect funding recommendations for graduate education.

(f) This subsection applies only to public junior colleges, public state colleges, and public technical institutes. In devising its funding formulas and making its recommendations to the legislature relating to institutional appropriations of incentive funds for institutions to which this subsection applies, the board, in the manner and to the extent the board considers appropriate and in consultation with those institutions, shall incorporate the consideration of the undergraduate student success measures achieved during the preceding state fiscal biennium by each of the institutions. The success measures considered by the board under this subsection may include:

(1) the following academic progress measures achieved by students at the institution:

(A) successful completion of:

(i) developmental education in mathematics;

(ii) developmental education in English;

(iii) the first college-level mathematics course with a grade of "C" or higher;

(iv) the first college-level English course with a grade of "C" or higher; and

(v) the first 30 semester credit hours at the institution; and

(B) transfer to a four-year college or university after successful completion of at least 15 semester credit hours at the institution; and

(2) the total number of the following awarded by the institution:

(A) associate's degrees;

(B) bachelor's degrees under Section 130.0012; and

(C) certificates identified by the board for purposes of this section as effective measures of student success.

(g) Biennially, the board, in consultation with institutions to which Subsections (d) and (f) apply, shall review the student success measures considered by the board under those subsections.

(h) The board shall include in its findings and recommendations to the legislature under Section 61.059:

(1) an evaluation of the effectiveness of the student success measures described by this section in achieving the purpose of this section during the preceding state fiscal biennium; and

(2) any related recommendations the board considers appropriate.

(i) The board shall adopt rules for the administration of this section, including rules requiring each institution of higher education to submit to the board any student data or other information the board considers necessary for the board to carry out its duties under this section.

Sec. 61.0594. COORDINATED FUNDING OF GRADUATE MEDICAL EDUCATION. (a) The board shall administer a program to support graduate medical education programs in this state consistent with the needs of this state for graduate medical education and the training of resident physicians in accredited residency programs in appropriate fields and specialties, including primary care specialties described by Section 58.008(a).

(b) From money available to the program, the board may make grants or formula distributions to:

(1) support appropriate graduate medical education programs and activities for which adequate funds are not otherwise available; or

(2) foster new or expanded graduate medical education programs or activities that the board determines will address the state's needs for graduate medical education.

(c) To be eligible to receive a grant or distribution under this section, an institution or other entity must incur the costs of faculty supervision and education or the stipend costs of resident physicians in accredited clinical residency programs in this state. In making grants and distributions under this section, the board shall give consideration to the costs incurred by medical schools or other entities to support faculty responsible for the education or supervision of resident physicians in accredited graduate medical

education programs, including programs in osteopathic medical education.

(d) The program is funded by appropriations, by gifts, grants, and donations made to support the program, and by any other funds the board obtains, including federal funds, for the program. From program funds, the comptroller of public accounts shall issue warrants to each institution or other entity determined by the board as eligible to receive a grant or distribution from the program in the amount certified by the board. An amount granted to an institution or other entity under the program may be used only to cover expenses of training residents of the particular program or activity for which the award is made in accordance with any conditions imposed by the board and may not otherwise be expended for the general support of the institution or entity.

(e) The board shall appoint an advisory committee to advise the board regarding the development and administration of the program, including considering requests for program grants and establishing formulas for distribution of money under the program. The advisory committee shall consist of:

(1) the executive director of the Texas State Board of Medical Examiners or the executive director's designee;

(2) the chair of the Family Practice Residency Advisory Committee or the chair's designee;

(F) one representative of an entity providing managed health care;

(G) three clinical faculty members, at least one of whom must be a generalist;

(H) one resident physician, who is a nonvoting member; and

(I) one medical student, who is a nonvoting member.

(f) The appointed advisory committee members serve staggered three-year terms. The board shall make the initial committee appointments to terms of one, two, and three years as necessary so that one-third of the appointed members' terms expire each year, as nearly as practicable. The committee shall elect one of its members as presiding officer for a term of one year. The committee shall meet at least once each year at the times requested by the board or set by the presiding officer of the committee. A member of the advisory committee may not be compensated for service on the committee but is entitled to be reimbursed by the board for actual expenses incurred in the performance of the member's duties as a committee member.

(g) The advisory committee shall:

(1) review applications for funding of graduate medical education programs under this section and make recommendations for approval or disapproval of those applications;

(2) make recommendations relating to the standards and criteria used for consideration and approval of grants or for the development of formulas for distribution of funding under this section;

Sec. 61.0595. FUNDING FOR CERTAIN EXCESS UNDERGRADUATE CREDIT HOURS. (a) In the formulas established under Section 61.059, the board may not include funding for semester credit hours earned by a resident undergraduate student who before the semester or other academic session begins has previously attempted a number of semester

credit hours for courses taken at any institution of higher education while classified as a resident student for tuition purposes that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program or programs in which the student is enrolled, including minors and double majors, and for completion of any certificate or other special program in which the student is also enrolled, including a program with a study-abroad component.

(b) For purposes of Subsection (a), an undergraduate student who is not enrolled in a degree program is considered to be enrolled in a degree program requiring a minimum of 120 semester credit hours.

(c) For a student enrolled in a baccalaureate program under Section 51.931, semester credit hours earned by the student 10 or more years before the date the student begins the new degree program under Section 51.931 are not counted for purposes of determining whether the student has previously earned the number of semester credit hours specified by Subsection (a).

(d) The following are not counted for purposes of determining whether the student has previously earned the number of semester credit hours specified by Subsection (a):

(1) semester credit hours earned by the student before receiving a baccalaureate degree that has previously been awarded to the student;

(2) semester credit hours earned by the student by examination or under any other procedure by which credit is earned without registering for a course for which tuition is charged;

(3) credit for a remedial education course, a technical course, a workforce education course funded according to contact hours, or another course that does not count toward a degree program at the institution;

(4) semester credit hours earned by the student at a private institution or an out-of-state institution; and

(5) semester credit hours earned by the student before graduating from high school and used to satisfy high school graduation requirements.

(e) Subsection (a) applies only to funding for semester credit hours earned by a student who initially enrolled as an undergraduate student in any institution of higher education during or after the 1999 fall semester, except that with respect to semester credit hours earned by a student who initially enrolls as an undergraduate student

in any institution of higher education before the 2006 fall semester, the board may not reduce funding under this section until the number of semester credit hours previously attempted by the student as described by this section exceeds the number of semester credit hours required for the student's degree program by at least 45 hours.

(f) In the formulas established under Section 61.059, the board shall include without consideration of Subsection (a) funding for semester credit hours earned by a student who initially enrolled as an undergraduate student in any institution of higher education before the 1999 fall semester.

(g) To the extent practicable, the savings to the state resulting from the exclusion of funding for excess undergraduate semester credit hours from the funding formulas of the board as required by this section shall be used to finance the Toward EXcellence, Access, & Success (TEXAS) grant program under Subchapter M, Chapter 56.

Sec. 61.0596. UNIVERSITY FUNDING FOR EXCELLENCE IN SPECIFIC PROGRAMS AND FIELDS; INCENTIVE GRANTS. (a) The board shall administer this section to encourage and assist general academic teaching institutions, other than public state colleges, that are not research universities or emerging research universities according to the institutional groupings under the board's higher education accountability system to develop and maintain specific programs or fields of study of the highest national rank or recognition for that type of program or field.

(b) To assist the institution in achieving the highest national rank or recognition for the applicable degree program and from money available for the purpose, the board shall award incentive grants to general academic teaching institutions described by Subsection (a)

that the board considers to have demonstrated the greatest commitment to success in developing or improving, consistent with the mission of the institution, the quality of an existing degree program designated by the institution. An institution must use a grant under this subsection for faculty recruitment or other faculty support with respect to the designated degree program for which the grant is awarded, including establishment of endowed faculty positions or enhancement of faculty compensation as considered appropriate by the institution.

(c) An institution may designate only one degree program at a time for consideration for new funding under Subsection (b). The institution may change its designation with the consent of the board. If the board determines that an institution has met all the applicable benchmarks for the institution's designated program, the institution may designate another degree program for consideration for new funding under Subsection (b).

(d) The board shall establish a series of benchmarks applicable to each degree program designated by an institution under this section. The institution becomes eligible for funding under Subsection (b) for each benchmark the board determines that the institution has met. The board shall establish the amount of funding for each benchmark met in a manner that provides an effective incentive to assist the institution to continue its efforts to meet the remaining benchmarks for its designated program.

(e) Unless the board determines that a different number of benchmarks is appropriate, the board shall establish three benchmarks for each designated degree program. The board shall identify one or more persons who have relevant expertise and do not reside in this state to assist the board in establishing the benchmarks and associated funding levels for each type of degree program designated by an institution under this section.

(f) An institution that designates a degree program to receive funding under Subsection (b) shall reimburse the board for the costs incurred by the board in administering this section with respect to the institution's designated program.

(g) In addition to supporting the programs designated by institutions for consideration to receive incentive grants under Subsection (b), from money available for the purpose, the board shall provide additional money as the board determines appropriate to assist the institutions described by Subsection (a) in maintaining

the excellence of programs or fields of study that have achieved the highest national ranking or recognition for that type of program or field.

(h) The legislature may not appropriate money for grants or other financial assistance to general academic teaching institutions under this section before the board certifies that one or more institutions have met at least one of the benchmarks established by the board for the institutions' designated degree programs under Subsection (d).

(c) A postsecondary educational institution may use the recommendations made under Subsection (b) in planning for degree programs, coursework offerings, and training programs.

(d) Not later than February 1, 2015, the board shall prepare and submit electronically to each standing legislative committee with primary jurisdiction over higher education or workforce development, each public and private postsecondary educational institution in this state, and the Texas Education Agency a report of the information collected and analyzed under this section, including recommendations of the board for programming at postsecondary educational institutions. (5) "Average annual state tax support per undergraduate medical student enrolled at the established public medical schools" means an amount calculated by dividing the net general revenue appropriations to the established public medical schools for the fiscal year next preceding the scholastic year of disbursement by the total number of undergraduate medical students enrolled in those

(a) The board may contract with Baylor College of Medicine for the administration, direction, and performance of all services and the provision, maintenance, operation, and repair of all buildings, facilities, structures, equipment, and materials necessary or proper to the education, training, preparation, or instruction of bona fide Texas resident undergraduate medical students.

(b) Funds received by Baylor College of Medicine under Subchapter A or B, Chapter 63, may be used only to support programs that benefit medical research, health education, or treatment programs at the institution.

(c) If Baylor College of Medicine elects to administer the fund established for the institution under Subchapter B, Chapter 63, Baylor College of Medicine and the board must enter into a contract that requires Baylor College of Medicine to administer the fund in the same manner and subject to the same regulations, including disclosure requirements, as would apply to the comptroller if the comptroller were administering a fund under Subchapter B, Chapter 63.

(d) This subchapter may not be construed to empower the board to limit, alter, modify, or in any other manner change or approve, or negotiate for changes in or approval of, the administration, direction, and performance of these services or the provision, maintenance, operation, and repair of buildings, facilities, structures, equipment, or materials.

medical schools, multiplied by the number of bona fide Texas resident undergraduate medical students enrolled at Baylor College of Medicine. However, the board may never disburse an amount exceeding the amount appropriated by the legislature for this purpose.

(b) Subject to the limitations described in Subsection (a) of this section, the board may establish, by contract with Baylor College of Medicine, the method by which the disbursement shall be accomplished, and may prescribe reasonable rules and regulations necessary to ascertain the average annual state tax support per undergraduate medical student at the established public medical schools.

(c) Money appropriated for payment of contracts under the authority of Section 61.092 shall be paid to Baylor College of Medicine as follows:

(1) 40 percent of the yearly entitlement shall be paid in two equal installments to be made on or before the 25th day of September and October; and

(2) 60 percent of the yearly entitlement shall be paid in six equal installments to be made on or before the 25th day of November, December, January, February, March, and April.

If an installment under this section is required to be equal to other installments, the amount of other installments may be adjusted to provide for that equality. A payment under this section is not invalid because it is not equal to other installments.

(c) In no event shall a tuition equalization grant paid pursuant to this subchapter in behalf of any student during any one fiscal year exceed an amount equal to 50 percent of the average state appropriation in the biennium preceding the biennium in which the grant is made for a full-time student or the equivalent at public senior colleges and universities, as determined by the board.

(d) Notwithstanding any other law, a student enrolled in a private or independent institution of higher education may not receive a tuition equalization grant under this subchapter and a TEXAS grant under Subchapter M, Chapter 56, for the same semester or other term, regardless of whether the student is otherwise eligible for both grants during that semester or term. A student who but for this subsection would be awarded both a tuition equalization grant and a TEXAS grant for the same semester or other term is entitled to receive only the grant of the greater amount.

(e) Notwithstanding any restrictions provided by Subsection (c) on the amount of a grant, a tuition equalization grant for an academic period for an undergraduate student who establishes exceptional financial need in accordance with the procedures and rules of the coordinating board may be certified by the institution at which the undergraduate student is enrolled in an amount not to exceed 150 percent of the amount of the grant that the student would otherwise have been awarded for that period under the other provisions of this section.

SUBCHAPTER G. REGULATION OF PRIVATE POSTSECONDARY EDUCATIONAL INSTITUTIONS

Sec. 61.301. PURPOSE. It is the policy and purpose of the State of Texas to prevent deception of the public resulting from the conferring and use of fraudulent or substandard college and university degrees; it is also the purpose of this subchapter to regulate the use of academic terminology in naming or otherwise designating educational institutions, the advertising, solicitation or representation by educational institutions or their agents, and the maintenance and preservation of essential academic records. Because degrees and equivalent indicators of educational attainment are used by employers in judging the training of prospective employees, by public and private professional groups in determining qualifications for admission to and continuance of practice, and by the general public in assessing the competence of persons engaged in a wide range of activities necessary to the general welfare, regulation by law of the evidences of college and university educational attainment is in the public interest. To the same end the protection of legitimate institutions and of those holding degrees from them is also in the public interest.

Added by Acts 1975, 64th Leg., p. 1867, ch. 587, Sec. 1, eff. June 19, 1975.

Sec. 61.302. DEFINITIONS. In this subchapter:

(1) "Degree" means any title or designation, mark, abbreviation, appellation, or series of letters or words, including associate, bachelor's, master's, doctor's, and their equivalents, which signifies, purports to, or is generally taken to signify satisfactory completion of the requirements of all or part of a program of study leading to an associate, bachelor's, master's, or doctor's degree or its equivalent.

(2) "Private postsecondary educational institution" or

"institution" means an educational institution which:

(A) is not an institution of higher education as defined by Section 61.003;

(B) is incorporated under the laws of this state, maintains a place of business in this state, has a representative present in this state, or solicits business in this state; and

(C) furnishes or offers to furnish courses of instruction in person, by electronic media, or by correspondence leading to a degree or providing credits alleged to be applicable to a degree.

(3) "Agent" means a person employed by or representing a private postsecondary educational institution who solicits students for enrollment in the institution.

(4) "Commissioner" means the Commissioner of Higher Education.

(5) "Board" means the Texas Higher Education Coordinating Board.

(6) "Person" means any individual, firm, partnership, association, corporation, or other private entity or combination thereof.

(7) "Program of study" means any course or grouping of courses which are alleged to entitle a student to a degree or to credits alleged to be applicable to a degree.

(8) "Recognized accrediting agency" means an association or organization so designated by rule of the board for the purposes of this subchapter.

(9) "Educational or training establishment" means an enterprise offering a course of instruction, education, or training that the establishment does not represent to be applicable to a degree.

(10) "Representative" includes a recruiter, agent, tutor, counselor, instructor, and other instructional and support personnel.

(11) "Fraudulent or substandard degree" means:

(A) a degree conferred by a private postsecondary educational institution or other person that, at the time the degree was conferred, was operating in this state in violation of this subchapter;

(B) if the degree is not approved through the review process described by Section 61.3021, a degree conferred by a private educational institution or other person that, at the time the degree

was conferred, was not eligible to receive a certificate of authority under this subchapter and was operating in another state:

(i) in violation of a law regulating the conferral of degrees in that state or in the state in which the degree recipient was residing; or

(ii) without accreditation by a recognized accrediting agency; or

(C) if conferred by a private educational institution or other person not described by Paragraph (A) or (B), including a private educational institution or other person that, at the time the degree was conferred, was not eligible to receive a certificate of authority under this subchapter and was operating outside the United States, a degree that the board, through the review process described by Section 61.3021, determines is not the equivalent of an accredited or authorized degree as described by that section.

Added by Acts 1975, 64th Leg., p. 1867, ch. 587, Sec. 1, eff. June 19, 1975. Amended by Acts 1981, 67th Leg., p. 2729, ch. 745, Sec. 1, eff. June 16, 1981; Acts 1985, 69th Leg., ch. 76, Sec. 1, eff. Sept. 1, 1985; Acts 1993, 73rd Leg., ch. 516, Sec. 5, eff. Sept. 1, 1993; Acts 1997, 75th Leg., ch. 232, Sec. 1, eff. Sept. 1, 1997.

Amended by:

Acts 2005, 79th Leg., Ch. 1039 (H.B. [1173](#)), Sec. 1, eff. September 1, 2005.

Sec. 61.3021. REVIEW OF DEGREE NOT OTHERWISE REGULATED BY SUBCHAPTER. (a) The board by rule shall establish a process for reviewing and approving a degree conferred by a person described by Section 61.302(11)(B) or (C). (b) The board may charge an applicant for a review under this section a fee in an amount the board determines will cover the cost of conducting the review.

Added by Acts 2005, 79th Leg., Ch. 1039 (H.B. [1173](#)), Sec. 2, eff. September 1, 2005.

Sec. 61.303. EXEMPTIONS. (a) The provisions of this subchapter do not in any way apply to an institution which is fully accredited by a recognized accrediting agency, or an institution or degree program that has received approval by a state agency authorizing the institution's graduates to take a professional or vocational state licensing examination administered by that agency. The granting of permission by a state agency to a graduate of an institution to take a licensing examination does not by itself constitute approval of the institution or degree program required for an exemption under this subsection.

(b) The exemptions provided by Subsection (a) apply only to the degree level for which an institution is accredited, and if an institution offers to award a degree at a level for which it is not accredited, the exemption does not apply.

(c) An exempt institution or person may be issued a certificate of authorization to grant degrees.

(d) An exempt institution or person would continue in that status only so long as it maintained accreditation by a recognized accrediting agency or otherwise met the provisions of Subsection (a).

(e) The board shall provide for due process and procedures for revoking the exemption status of an institution or person.

(f) A private postsecondary educational institution may not establish or operate a branch campus, extension center, or other off-campus unit in Texas except as provided by this subsection or the rules of the board. This subsection does not apply to a private or independent institution of higher education as defined by Section 61.003.

(g) Deleted by Acts 1997, 75th Leg., ch. 232, Sec. 2, eff. Sept. 1, 1997.

(h) Expired.

Sec. 65.46. POWERS RELATED TO ISSUANCE OF BONDS AND NOTES. (a)
In this section:

(1) "Bond" or "note" means a bond or note that the board is authorized to issue according to law, including Article VII, Section 18, of the Texas Constitution, Chapter 55 or 66 of this code, or other applicable law.

(2) "Credit agreement" means a loan agreement, revolving credit agreement, agreement establishing a line of credit, letter of credit, reimbursement agreement, insurance contract, commitment to purchase bonds or notes, purchase or sale agreement, or another commitment, contract, or agreement authorized and approved by the board in connection with the authorization, issuance, security, exchange, payment, purchase, or redemption of bonds or notes or interest on bonds or notes.

(b) To enhance the security for, or provide for the purchase, payment, redemption, or remarketing of, bonds or notes and the interest on bonds or notes, or to reduce the cost of interest payable on bonds or notes, the board may enter into credit agreements in relation to bonds or notes, and may secure its obligations under the

credit agreements by pledging, encumbering, or granting liens on or security interests in revenues, funds, or other property or security that may be pledged or encumbered or made subject to a lien or security interest to secure the bonds or notes that are secured by the credit agreement. The cost to the board of the credit agreement and the obligations of the board under the credit agreement may be paid from proceeds of the sale of bonds or notes to which the credit agreement relates or from any other source that is available for the purpose of paying the bonds or notes and the interest on the bonds or notes or that may otherwise be legally available to make those payments. The credit agreement shall be submitted, together with the bonds or notes, to the attorney general for review. If the attorney general finds that the credit agreement conforms to applicable law, the attorney general shall approve the credit agreement with the bonds or notes. On approval and delivery, the credit agreement is incontestable for any cause.

(c) The board may authorize bonds or notes to bear interest at a rate or rates (either fixed, variable, floating, adjustable, or otherwise, all as determined in accordance with the resolution authorizing the issuance of the bonds or notes, which may provide a formula, index, or contractual arrangement for the periodic determination of interest rates without the requirement of specific approval, by the board, of each determination) not to exceed the maximum net effective interest rate allowed by law. The resolution under which the bonds or notes are issued may delegate to one or more designated officers, employees, or agents of the board the authority to act on behalf of the board, while the bonds or notes remain outstanding, in fixing dates, prices, interest rates, interest payment periods, and other procedures specified in the resolution so that, among other things, the interest on the bonds or notes may be adjusted from time to time by the officer, employee, or agent to permit the bonds or notes to be sold or resold at par in conjunction with secondary market transactions.

(d) The board may enter into financing programs under which the board may issue notes for any lawful purpose for which bonds or notes may be issued and may make provision for the notes initially issued under the programs to be refinanced, renewed, or refunded throughout the period of the programs by the issuance, sale, and delivery of additional notes. The notes may be secured in any manner provided by law for securing notes or bonds, and also may be secured by the

proceeds of the sale of notes, the proceeds of the sale of bonds, or credit agreements, all as the board provides in the resolution authorizing the financing program and the issuance of notes under the program. The board may:

(1) provide in the resolution authorizing the financing program for the maximum principal amount of notes to be outstanding at any time under the financing program;

(2) provide for the authorization of one or more officers or employees of the board to act on behalf of the board in selling and delivering notes and fixing their dates, prices, interest rates, terms of payment, and other procedures relating to the notes as specified in the resolution;

(3) contract for the future sale of notes under which designated purchasers are committed to purchase notes from time to time on the terms and conditions stated in the contract, including a credit agreement executed in connection with the notes;

(4) provide for the payment of consideration that the board considers proper for the purchase commitments, and provide for the payment of the consideration out of proceeds from the sale of notes or from any other source that is available for the purpose of paying the notes or that may otherwise be legally available to make the payments; and

(5) exercise any other rights and powers that are granted to issuers of obligations under Chapter 1371, Government Code, which also governs the approval by the attorney general of the notes, related credit agreements, and other contracts or instruments and the registration of the notes by the comptroller.

(e) This section shall be construed liberally to effect the legislative intent and purposes of this section, and all powers granted by this section shall be broadly interpreted to effect that intent and those purposes and not as a limitation of powers.

Sec. 65.461. BOND ENHANCEMENT AGREEMENTS. (a) In this section:

(1) "Bond" or "note" means a bond or note that the board is

authorized to issue according to law, including Section 18, Article VII, Texas Constitution, Chapter 55 or 66 of this code, or other applicable law.

(2) "Bond enhancement agreement" means an interest rate swap agreement, a currency swap agreement, a forward payment conversion agreement, an agreement providing for payments based on levels of or changes in interest rates or currency exchange rates, an agreement to exchange cash flows or a series of payments, or other agreement, including an option, put, or call, to hedge or modify payment, currency, rate, spread, or other exposure.

(b) The board may at any time and from time to time enter into one or more bond enhancement agreements that the board determines to be necessary or appropriate to place the obligation of the board, as represented by the bonds or notes issued or to be issued, in whole or in part, on the interest rate, currency, cash flow, or other basis desired by the board. A bond enhancement agreement is an agreement for professional services and shall contain the terms and conditions and be for the period that the board authorizes. The fees and expenses of the board in connection with a bond enhancement agreement, including any payments due from the board under a bond enhancement agreement, may be paid from and secured by a lien on and pledge of all or any part of any of the revenue funds of the board and its institutions, proceeds of the sale of bonds or notes to which the bond enhancement agreement relates, or from any other source that is legally available for the purpose of paying the bonds or notes and the interest on the bonds or notes or that may otherwise be legally available to make those payments. Payments due from the board under a bond enhancement agreement relating to bonds or notes issued pursuant to Section 18, Article VII, Texas Constitution, are deemed to be for the support and maintenance of The University of Texas System administration and may be paid from the available university fund.

(c) The resolution of the board authorizing a bond enhancement agreement may authorize one or more designated officers or employees of the board to act on behalf of the board in entering into and delivering the bond enhancement agreement and in determining or setting the counterparty and terms of the bond enhancement agreement specified in the resolution.

(d) The resolution of the board authorizing a financing program pursuant to Section 65.46 may include authorization of one or more

bond enhancement agreements.

(e) Unless the board or its designee elects otherwise in its authorization or approval of a bond enhancement agreement, the bond enhancement agreement is not a credit agreement for purposes of Chapter 1371, Government Code, or Section 65.46 of this chapter, or any successor to such laws, regardless of whether the bonds or notes relating to the bond enhancement agreement were issued in part under either such law.

(f) This section shall be construed liberally to effect the legislative intent and purposes of this section, and all powers granted by this section shall be broadly interpreted to effect that intent and those purposes and not as a limitation of powers.

(g) Each easement granted under this section shall be recorded in the county clerk's office of the county in which the land is located, and the recording fee shall be paid by the person who obtains the easement. The person who obtains the easement shall furnish to the board of regents a certified copy of the easement.

(h) No person may construct or maintain any structure or facility on land dedicated to the support and maintenance of The University of Texas System, nor may any person who has not acquired a proper easement, lease, permit, or other instrument from the board of regents and who owns or possesses a facility or structure that is now located on or across land dedicated to the support and maintenance of The University of Texas System continue in possession of the land unless the person obtains from the board an easement, lease, permit, or other instrument for the land on which the facility or structure is to be constructed or is located.

(f) The board may withdraw any lands advertised for lease before the hour set for receiving bids.

(g) Each bid is subject to the payment of a special fee equal to one and one-half percent of the total bonus whether stipulated or bid, which special payment shall constitute a special fund from which the board of regents shall defray the expenses of the sale, including the payment of the general operating expenses for geology, engineering, field inspection, and auditing oil and gas production of university lands and including salaries and traveling expenses of persons employed by the board of regents for those purposes.

(h) The board of regents may direct the comptroller of The University of Texas System to transmit to the state comptroller for deposit to the credit of the permanent university fund unexpended balances remaining in the special fee account after reserving a sufficient amount in it for the payment of current expenses as set out in Subsection (g).

(b) The board may provide by rule that the royalty rate for qualifying reservoirs may be reduced to not less than one-sixteenth (6.25 percent). In determining whether to grant a reduction in the royalty rate, the board may consider whether the qualifying property is being operated efficiently, including whether the property is pooled or has reasonable potential for the application of secondary or tertiary recovery techniques.

(c) If a qualifying reservoir for which royalty rate reduction is sought under this section is included in a unit subject to the authority of the board, the board may modify the terms and conditions of the unit as a condition of approving a reduction in the royalty rate.

The application shall be filed with

the board of regents on or before the expiration of the primary term.

(b) The applicant shall submit with the application a fee in an amount set by the board of not less than \$7.50 for each acre in the lease requested to be extended.

(f) An agreement for the payment of compensatory royalty shall provide that compensatory royalty be paid at the royalty rate provided in the lease and shall provide that compensatory royalty be paid on the market value of production from the well located on non-university lands or university lands leased at a lesser royalty situated within 1,000 feet of or draining the leased premises.

(c) An assignment or relinquishment of a lease or a portion thereof or an interest in a lease shall not relieve the lessee of accrued obligations, including the payment of royalty, penalty, or interest, and the lessee shall remain liable therefor.

(d) In the enforcement of lease obligations, the board and the

board of regents shall be entitled to rely on the state of title reflected by the records of the board of regents.

(e) The board of regents may implement such practices and procedures with regard to accounting for royalty payments as it may determine to be in the best interest of the state.

Amended by Acts 1997, 75th Leg., ch. 1324, Sec. 1, eff. Jan. 1, 1998.

(d) If a report, affidavit, supporting document, or other instrument required to be filed under Section 66.77 or Section 66.80 is not filed when due, a penalty accrues in the amount set by the board but not less than \$10 per document for each 30-day period of delinquency or fractional part thereof.

(e) Collection of penalty and interest charges under this section are in addition to any rights, including forfeiture, that the board or the board of regents may exercise for failure to pay a royalty or to submit a report or other instrument when due.

(f) The board may provide by rule procedures and standards for reduction of interest charged or penalties assessed under this

(e) If the board has elected to take royalty in kind, the board may elect that delivery of the correct amount of oil or gas shall be at the wellhead, at the oil and gas separator, into a pipeline connected at the well, or at such other location as may be specified in a royalty in kind provision in the lease or other agreement. Such delivery by the lessee shall satisfy the lessee's obligation for payment of the royalty due under the lease. This section shall not be construed to surrender or in any way affect the right of the board of regents under existing or future leases to receive royalty on the basis of market value of production not taken in kind.

Amended by Acts 1997, 75th Leg., ch. 1324, Sec. 1, eff. Jan. 1, 1998.

Sec. 66.80. RECORDS. This section shall not apply to records or information provided by the lessee under Section 66.77.

(b) Documents and information made confidential in this section shall not be subject to subpoena directed to the board, the board of regents, the commissioner, the attorney general, or the governor except in a judicial or administrative proceeding in which the state and a person with an equitable or legal interest in the lease or land to which the information relates are parties.

(c) The board, the board of regents, or the attorney general may use documents and information made confidential by the provisions of this section and contracts made confidential by this subchapter to enforce the provisions of this subchapter or may authorize their use in judicial or administrative proceedings in which this state is a party or may authorize their examination by employees, agents, or contractors of the board of regents or the state auditor for audit purposes.

Sec. 66.82. FORFEITURE; OTHER REMEDIES. (a) If a lessee fails or refuses to perform a material requirement of this subchapter or the lease, the board may, after notice to the lessee and an opportunity to be heard, declare a forfeiture of the lease or an interest in the lease. Material requirements include but are not limited to:

Sec. 66.83. LIEN; ABANDONED PERSONAL PROPERTY. (a) The board of regents shall have a statutory first lien on oil and gas produced from the area covered by the lease to secure payment of all unpaid royalty and other sums of money that may become due under the lease or this subchapter.

(b) By acceptance of the lease, the lessee grants to the board of regents an express contractual lien on and security interest in all oil and gas in and extracted from the area covered by the lease, all proceeds which may accrue to the lessee from the sale of the oil and gas, whether the proceeds are held by the lessee or another person, and all fixtures on and improvements to the area covered by the lease used in connection with the production or processing of the oil and gas to secure the payment of royalties and other amounts due or to become due under the lease or this subchapter and to secure payment of damages or loss that the state may suffer by reason of the lessee's breach of a covenant or condition of the lease, whether express or implied.

(c) The statutory and contractual liens and security interest described in this section may be foreclosed with or without court proceedings in the manner provided under Chapter 9, Business & Commerce Code. The board of regents may take title to abandoned personal property in any manner and keep or use the proceeds for any purpose allowed by law. The lessee shall pay to the

board of regents on demand the positive difference between the cost of disposing of abandoned personal property and the proceeds, if any, from the disposition.

(e) When credit is transferred pursuant to this section or as soon thereafter as possible, the Employees Retirement System shall transfer to the Teacher Retirement System the following:

(f) An employee described in Subsection (b) of this section shall not be entitled to a refund of contributions or retirement from the Employees Retirement System in lieu of the transfer of credit provided by this Act. After the transfer of the institute to The University of Texas System, the employee shall not be entitled to credit in the Employees Retirement System for service subject to transfer to the Teacher Retirement System under this section.

Science at The University of Texas at Brownsville.

(b) The Texas Academy of Mathematics and Science is a division of The University of Texas at Brownsville and is under the management and control of the board. The academy serves the following purposes:

(1) to provide academically gifted and highly motivated junior and senior high school students with a challenging university-level curriculum that:

(A) allows students to complete high school graduation requirements for the foundation high school program and the distinguished level of achievement under the foundation high school program and earn appropriate endorsements as provided by Section 28.025, while attending for academic credit a public institution of higher education;

(B) fosters students' knowledge of real-world mathematics and science issues and applications and teaches students to apply critical and computational thinking and problem-solving skills to those issues and problems;

(C) includes the study of English, foreign languages, social studies, mathematics, science, and technology; and

(D) offers students learning opportunities related to mathematics and science through in-depth research and field-based studies;

(2) to provide students with an awareness of mathematics and science careers and professional development opportunities through seminars, workshops, collaboration with postsecondary and university students including opportunities for summer studies, internships in foreign countries, and similar methods; and

(3) to provide students with social development activities that enrich the academic curriculum and student life, including, as determined appropriate by the academy, University Interscholastic League activities and other extracurricular activities.

(c) The academy is a coeducational institution for selected Texas high school students with an interest in and the potential to excel in mathematics and science studies. The academy shall admit only high school juniors and seniors, except that the academy may admit a student with exceptional abilities who is not yet a high school junior. The board shall set aside adequate space on the university campus in Brownsville to operate the academy and implement the purposes of this section. The academy must operate on the same fall and spring semester basis as the university. Full-time students

of the academy must enroll for both the fall and spring semesters. Faculty members of the university shall teach all academic classes at the academy. A student of the academy may attend a college course offered by the university and receive college credit for that course.

(d) Except as otherwise provided by this subsection, the university administration has the same powers and duties with respect to the academy that the administration has with respect to the university. The board shall consult with the vice president for academic affairs and the dean of the School of Education and other members of the administration as the board considers necessary concerning the academy's administrative design and support, personnel and student issues, and faculty development. The board shall consult with the dean of the College of Science, Mathematics and Technology and other members of the administration as the board considers necessary concerning the academy's curriculum development, program design, and general faculty issues. The board, in consultation with university administration, shall:

(1) establish an internal management system for the academy and appoint an academy principal who serves at the will of the board and reports to the vice president for academic affairs;

(2) provide for one or more academy counselors;

(3) establish for the academy a site-based decision-making process similar to the process required by Subchapter F, Chapter 11, that provides for the participation of academy faculty, parents of academy students, and other members of the community; and

(4) establish an admissions process for the academy.

(e) The student-teacher ratio in all regular academic classes at the academy may not exceed 30 students for each classroom teacher, except that the student-teacher ratio may exceed that limit:

(1) in a program provided for the purposes prescribed by Subsection (b)(2) or another special enrichment course or in a physical education course;

(2) if the board determines that a class with a higher student-teacher ratio would contribute to the educational development of the students in the class; or

(3) if an academy class is combined with a university class with more than 30 students.

(f) The academy shall provide the university-level curriculum in a manner that is appropriate for the social, psychological, emotional, and physical development of high school juniors and

seniors. The administrative and counseling personnel of the academy shall provide continuous support to and supervision of students.

(g) For each student enrolled in the academy, the academy is entitled to allotments from the foundation school fund under Chapter 42 as if the academy were a school district without a tier one local share for purposes of Section 42.253. If in any academic year the amount of the allotments under this subsection exceeds the amount of state funds paid to the academy in the first fiscal year of the academy's operation, the commissioner of education shall set aside from the total amount of funds to which school districts are entitled under Section 42.253(c) an amount equal to the excess amount and shall distribute that amount to the academy. After deducting the amount set aside and paid to the academy by the commissioner of education under this subsection, the commissioner of education shall reduce the amount to which each district is entitled under Section 42.253(c) in the manner described by Section 42.253(h). A determination of the commissioner of education under this subsection is final and may not be appealed.

(h) The board may use any available money, enter into contracts, and accept grants, including matching grants, federal grants, and grants from a corporation or other private contributor, in establishing and operating the academy. Money spent by the academy must further the purposes of the academy under Subsection (b).

(i) The liability of the state under Chapters 101 and 104, Civil Practice and Remedies Code, is limited for the academy and employees assigned to the academy and acting on behalf of the academy to the same extent that the liability of a school district and an employee of the school district is limited under Sections 22.0511, 22.0512, and 22.052 of this code and Section 101.051, Civil Practice and Remedies Code. An employee assigned to the academy is entitled to representation by the attorney general in a civil suit based on an action or omission of the employee in the course of the employee's employment, to limits on liability, and to indemnity under Chapters 104 and 108, Civil Practice and Remedies Code.

(j) Except as otherwise provided by this section, the academy is not subject to the provisions of this code, or to the rules of the Texas Education Agency, regulating public schools.

As used in this subsection, "steam plants" does not include electrical generating facilities, but "central power plants" does include electrical generating facilities.

(b) The board from time to time may construct, extend, and improve the water systems, sewer systems, or both, for any or all institutions under its control, when the total cost, type of construction, capacity, and plans and specifications have been approved by the board.

The board may allocate the cost of furnishing the services to revenue-producing buildings and facilities and to other buildings and facilities at the institutions. The board may pledge the net revenues from the amounts thus received for the services to pay the principal of and interest on, and to create and maintain the reserve for, the negotiable revenue bonds issued for the purpose of constructing, acquiring, improving, extending, or equipping the power and steam plants, or additions thereto, or other facilities, and may secure the bonds additionally by pledging rentals, rates, charges,

and fees for the use or availability of all or any property, buildings, structures, activities, operations, or facilities, of any nature, which may be fixed and collected from all or any designated part of the students enrolled in the institution or institutions or from others in the amounts and in the manner determined and provided by the board in the resolution authorizing the issuance of the bonds.

It shall also specify the terms and conditions, penalties for failure to comply with its provisions, and other pertinent information necessary and desirable to effect a complete understanding of the transaction.

(c) The grant of an easement for right-of-way, except an easement for right-of-way for highway or roadway purposes which may be for an indefinite term shall be limited to a term of not longer than 10 years, but any such easement may be renewed by the board.

(d) All income received by the board under the provisions of this section shall be accounted for and used in the same manner as other money available to the part of the system to which the land from which the easement is granted is assigned.

Any person, firm, group, organization, agency, or corporation violating this subsection shall be liable for a penalty of \$100 for each day of the violation, to be recovered by the attorney general.

(b) The board may acquire by purchase, lease, gift, condemnation, or otherwise, and may use, operate, and maintain any kind of property or property interest necessary or convenient to the exercise of powers under this section. The power of eminent domain shall be exercised in the manner provided by general law, including Title 52, Revised Civil Statutes of Texas, 1925, as amended, except that the board shall not be required to give bond for appeal or bond for costs.

(c) The comptroller may draw proper warrants in favor of any part of the university system based on vouchers or claims submitted by the system through the department covering reasonable fees and charges for services rendered by members of the staff of the system to the department and for equipment and materials necessary for research and experimentation under a contract entered into under this section.

(d) The comptroller shall pay warrants issued under this section against any funds appropriated by the legislature to the department. The payments made to the system shall be credited and

deposited to local institutional funds under its control.

(e) In this section:

(d) The donor may declare and direct the person or class of persons who shall receive the benefit of the donation and the manner of their selection.

(e) The declarations, directions, and limitations shall not be

inconsistent with the objects and proper management of the system or its institutions.

(f) The title to the property donated shall be received, and the trust conferred in the donation shall be assumed, subject to laws that may be passed and carried into effect from time to time which may be necessary to prevent the loss of or damage to the property donated or an abuse or neglect of the trust so as to defeat, materially change, or prevent the objects of the donation.

(g) Copies of the donation shall be filed with the board.

Added by Acts 1983, 68th Leg., p. 2053, ch. 377, Sec. 2, eff. June 17, 1983.

Sec. 85.51. AUTHORITY TO LEASE. (a) The board may lease for

oil, gas, sulphur, mineral ore, and other mineral developments all lands and mineral interests under its control, owned or in the future acquired by the state for the use of the university system.

(b) The board shall offer oil and gas leases at public auction, by sealed bid, by negotiated agreement, or through any other means that the board considers to be in the best interest of the university system.

Acts 1971, 62nd Leg., p. 3196, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971. Amended by Acts 2003, 78th Leg., ch. 1266, Sec. 4.09, eff. June 20, 2003.

Sec. 85.52. SALE OF MINERAL ORE IN PLACE. Mineral ore located in and on the land may also be sold in place by the board at not less than the fair market value as determined by the same methods as are provided for leasing of lands under this subchapter for development of the minerals in the lands.

Acts 1971, 62nd Leg., p. 3196, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.53. TRACTS, LOTS, BLOCKS. The board may cause the lands to be surveyed or subdivided into tracts, lots, or blocks that will, in its judgment, be most conducive and convenient to facilitate the advantageous sale of lease for oil, gas, sulphur, mineral ore, and other minerals, and may make maps and plats that may be thought necessary to carry out the purposes of this subchapter. The board may obtain authentic abstracts of title to all the lands as it deems necessary from time to time, and may take any steps necessary to perfect a merchantable title to the lands in the State of Texas.

Acts 1971, 62nd Leg., p. 3196, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.54. PLACING LEASES ON MARKET; ADVERTISING. (a) Whenever, in the opinion of the board, there is a demand for the purchase of oil, gas, sulphur, mineral ore, or other mineral leases on any tract or part of any tract of land that will reasonably insure

an advantageous sale, the board shall place the oil, gas, sulphur, mineral ore, or other mineral leases on the land on the market in any tract or tracts, or any part thereof, that the board may designate.

(b) The board shall cause to be advertised a brief description of the land from which the oil, gas, sulphur, mineral ore, or other minerals is proposed to be leased. The advertisement shall be made by inserting in two or more papers of general circulation in this state; and in addition the board may, in its discretion, cause the advertisement to be placed in an oil and gas journal published in and out of the state, mail copies of the proposals to the county judge of the county where the lands are located, and mail copies of the proposals to other persons the board thinks would be interested.

Acts 1971, 62nd Leg., p. 3196, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.55. PUBLIC AUCTION; BIDS; ACCEPTANCE; REJECTION; PAYMENTS. (a) The board may sell the lease or leases to the highest bidder at public auction, at Texas A & M University, in College Station, at any hour between 10 a.m. and 5 p.m.

(b) The board may reject all bids. However, the highest bidder shall pay to the board on the day of the sale 25 percent of the bonus bid, and the balance of the bid shall be paid to the board within 24 hours after notification that the bid has been accepted. Payments shall be in cash, certified check, or cashier's check, as the board may direct. Failure to pay the balance of the amount bid will forfeit to the board the 25 percent paid.

(c) A separate bid shall be made for each tract or subdivision thereof. No bids shall be accepted which offer less than the fair market price per ton for the mineral ore or a royalty of less than one-eighth of the gross production of oil, gas, sulphur, and other minerals in the land bid upon, and this minimum royalty may be increased at the discretion of the board. Every bid shall carry the obligation to pay an amount not less than \$1 per acre for delay in drilling or development. The amount shall be fixed by the board in advance of the advertisement and shall be paid every year for five years unless in the meantime production in paying quantities is had upon the land or the land is re-leased by the lessee.

Acts 1971, 62nd Leg., p. 3197, ch. 1024, art. 1, Sec. 1, eff. Sept.

1, 1971.

Sec. 85.56. SUBSEQUENT PROCEDURE IF NO BIDS ACCEPTED. If no bid is accepted by the board at the public auction, any subsequent procedure for the sale of oil, gas, sulphur, mineral ore, and other mineral leases shall be in the manner prescribed by this subchapter.

Acts 1971, 62nd Leg., p. 3197, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.57. WITHDRAWAL OF LAND ADVERTISED. The board may withdraw any lands advertised for lease or for the sale of mineral ore in place.

Acts 1971, 62nd Leg., p. 3197, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.58. ACCEPTANCE OF BIDS; AWARD OF LEASE. (a) If in the opinion of the board any one of the bidders has offered a reasonable and proper price for any tract and not less than the price fixed by the board, the lands advertised may be leased for oil, gas, sulphur, mineral ore, and other mineral purposes under the provisions of this subchapter and any regulations the board may prescribe which are not inconsistent with the provisions of this subchapter.

(b) On acceptance of a bid, the board shall prepare a lease contract. The bid and a copy of the lease contract shall be filed in the general land office.

Acts 1971, 62nd Leg., p. 3197, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.59. EXPLORATORY TERM; EXTENSION; OTHER PROVISIONS OF LEASE. (a) The exploratory term of the lease as determined by the board prior to the promulgation of the advertisement shall in no case exceed five years, and each lease shall provide that the lease will terminate at the expiration of its exploratory term unless by unanimous vote of members of the board the lease may be extended for

a period of three years. The lease may be extended if the board finds that there is likelihood of oil, gas, sulphur, mineral ore, and other minerals being discovered by lessees, and that the lessees have proceeded with diligence to protect the interest of the state. However, if oil, gas, sulphur, mineral ore, and other minerals are being produced in paying quantities from the premises, the lease shall continue in force and effect as long as the oil, gas, sulphur, mineral ore, and other minerals are being so produced. No extension under this subsection may be made by the board until the last 30 days of the original term of the lease.

(b) When, in the discretion of the board, it is deemed for the best interest of the state to extend a lease issued by the board, the board by unanimous vote may extend the lease for a period not to exceed three years, on the condition that the lessee shall continue to pay yearly rental as provided in the lease and any additional terms the board may see fit and proper to demand. The board may extend the lease and execute an extension agreement.

(c) The lease shall include any additional provisions and regulations the board may prescribe to preserve the interest of the state, not inconsistent with the provisions of this subchapter.

Acts 1971, 62nd Leg., p. 3197, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.60. DISCONTINUANCE OF YEARLY PAYMENTS; TERMINATION FOR NONPRODUCTION. When the royalties amount to as much as the yearly payments as fixed by the board, the yearly payments may be discontinued. If before the expiration of five years oil, gas, sulphur, mineral ore, and other minerals have not been produced in paying quantities, the lease shall terminate unless extended as provided by this subchapter.

Acts 1971, 62nd Leg., p. 3198, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.61. OPERATIONS UNDER LEASE: EFFECT ON RENTAL PAYMENTS, TERM OF LEASE. If, during the term of any lease issued under the provisions of this subchapter, the lessee is engaged in actual drilling and mining operations for the discovery of oil, gas,

sulphur, mineral ore, and other minerals on land covered by any such lease, no rentals shall be payable as to the tract on which the operations are being conducted as long as the operations are proceeding in good faith; and if oil, gas, sulphur, mineral ore, and other minerals are discovered in paying quantities on any tract of land covered by any lease, then the lease as to that tract shall remain in force as long as oil, gas, sulphur, mineral ore, and other minerals are produced in paying quantities from the tract.

Acts 1971, 62nd Leg., p. 3198, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.62. PRORATION OR REDUCTION OF PRODUCTION. When, in the discretion of the board, it is for the best interest of the state to prorate or reduce production of any land, the board may execute the necessary contract to carry out that purpose.

Acts 1971, 62nd Leg., p. 3198, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.63. INTERFERENCE WITH SURFACE USES. No lease for oil, gas, sulphur, mineral ore, and other minerals shall be made by the board which will permit the drilling or mining for oil, gas, sulphur, mineral ore, and other minerals within 300 feet of any building on the land without the consent of the board. A lease on any experimental station or farm shall provide that the operations for oil, gas, sulphur, mineral ore, and other minerals shall not in any way interfere with use of the land as an experimental station and shall not cause the abandonment of the property or its use for experimental farm purposes; and the lessee shall drill, mine, and carry on his operations in such a way as not to cause the abandonment of the property for experimental farm purposes, and any such leased property shall be subject to the use by the State of Texas for all experimental purposes and the board shall continue to operate the experimental station.

Acts 1971, 62nd Leg., p. 3198, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.64. PROTECTION FROM DRAINAGE. In every case where the area in which oil, gas, sulphur, mineral ore, and other minerals sold shall be contiguous or adjacent to lands which are not lands belonging to and held by the university system, the acceptance of the bid and the sale made thereby shall constitute an obligation on the owner to adequately protect the land leased from drainage from the adjacent lands to the extent that a reasonably prudent operator would do under the same and similar circumstances. In cases where the area in which the oil, gas, sulphur, mineral ore, and other minerals are sold is contiguous to other lands belonging to and held by the university system which have been leased or sold at a lesser royalty, the owner shall likewise protect the land from drainage from the lands so leased or sold for a lesser royalty. On failure to protect the land from drainage as herein provided, the sale and all rights thereunder may be forfeited by the board in the manner provided in this subchapter for forfeitures.

Acts 1971, 62nd Leg., p. 3199, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 85.65. RIGHTS OF PURCHASER; ASSIGNMENT; RELINQUISHMENT.

(a) Title to all rights purchased may be held by the owners as long as the area produces oil, gas, sulphur, mineral ore, and other minerals in paying quantities.

(b) All rights purchased may be assigned. All assignments shall be filed in the general land office as prescribed by rule, accompanied by 10 cents per acre for each acre assigned and the filing fee as prescribed by rule. An assignment shall not be effective unless filed as required by rule. An assignment shall not relieve the assignor of any liabilities or obligations incurred prior to the assignment.

(c) All rights to all or any part of a leased tract may be released to the state at any time by recording a release instrument in the county or counties in which the tract is located. Releases must also be filed with the chairman of the board and the general land office, accompanied by the filing fee prescribed by rule. A release shall not relieve the owner of any obligations or liabilities incurred prior to the release.

(d) The board shall authorize the laying of pipeline, telephone

line, and the opening of roads as deemed reasonably necessary for and incident to the purpose of this subchapter.

Acts 1971, 62nd Leg., p. 3199, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971. Amended by Acts 1987, 70th Leg., ch. 948, Sec. 35, eff. Sept. 1, 1987.

Sec. 85.66. ROYALTY PAYMENTS; INSPECTION OF RECORDS; REPORT OF LAND COMMISSIONER. (a) If oil or other minerals are developed on any of the lands leased by the board, the royalty or money as stipulated in the sale shall be paid to the general land office at Austin on or before the last day of each month for the preceding month during the life of the rights purchased, and shall be set aside as specified in Section 85.70. The royalty or money paid to the general land office shall be accompanied by the sworn statement of the owner, manager, or other authorized agent showing the gross amount of oil, gas, sulphur, mineral ore, and other minerals produced and saved since the last report, the amount of oil, gas, sulphur, mineral ore, and other minerals produced and sold off the premises, and the market value of the oil, gas, sulphur, mineral ore, and other minerals, together with a copy of all daily gauges, or vats, tanks, gas meter readings, pipeline receipts, gas line receipts and other checks and memoranda of the amounts produced and put into pipelines, tanks, vats, or pool and gas lines, gas storage, other places of storage, and other means of transportation.

(b) The books and accounts, receipts and discharges of all wells, tanks, vats, pools, meters, pipelines, and all contracts and other records pertaining to the production, transportation, sale, and marketing of oil, gas, sulphur, mineral ore, and other minerals shall at all times be subject to inspection and examination of any member of the board or any duly authorized representative of the board.

(c) The commissioner of the general land office shall tender to the board on or before the 10th day of each month a report of all receipts that are collected from the lease or sale of oil, gas, sulphur, mineral ore, and other minerals and that are deposited as provided by Section 85.70 during the preceding month.

(d) Each lease shall contain a provision enabling the Board, at its discretion, to require that payment of royalty, as stipulated in the lease, be in kind. The Board shall have all powers necessary to

negotiate and execute sales contracts or any other instruments necessary for the disposition of any royalty taken in kind. Such other reasonable provisions, not inconsistent with this subchapter, that will facilitate the efficient and equitable payment of royalty in kind may be included in the lease by the Board.

(D) is presented through an interdisciplinary approach that introduces and develops issues, especially issues related to international concerns, throughout the curriculum; and

(E) offers students learning opportunities related to international issues through in-depth research and field-based studies;

(2) to provide students with an awareness of international career and professional development opportunities through seminars, workshops, collaboration with postsecondary students from other countries, summer academic international studies internships in foreign countries, and similar methods; and

(3) to provide students with social development activities that enrich the academic curriculum and student life, including, as determined appropriate by the academy, University Interscholastic League activities and other extracurricular activities generally offered by public high schools.

(c) The academy is a residential, coeducational institution for selected Texas high school students with an interest and the potential to excel in international studies. The academy shall admit only high school juniors and seniors, except that the academy may admit a student with exceptional abilities who is not yet a high school junior. The board shall set aside adequate space on the university campus in Laredo to operate the academy and implement the purposes of this section. The academy must operate on the same fall and spring semester basis as the university. Full-time students of the academy must enroll for both the fall and spring semesters. Faculty members of the university shall teach all academic classes at the academy. A student of the academy may attend a college course offered by the university and receive college credit for that course.

(d) Except as otherwise provided by this subsection, the university administration has the same powers and duties with respect

to the academy that the administration has with respect to the university. The board shall consult with the dean of the College of Education and other members of the administration as the board considers necessary concerning the academy's administrative design and support, personnel and student issues, and faculty development. The board shall consult with the dean of the College of Arts and Sciences and other members of the administration as the board considers necessary concerning the academy's curriculum development, program design, and general faculty issues. The board, in consultation with university administration, shall:

(1) establish an internal management system for the academy and appoint an academy principal who serves at the will of the board and reports to the university provost;

(2) provide for one or more academy counselors;

(3) establish for the academy a site-based decision-making process similar to the process required by Subchapter F, Chapter 11, that provides for the participation of academy faculty, parents of academy students, and other members of the community; and

(4) establish an admissions process for the academy.

(e) The student-teacher ratio in all regular academic classes at the academy may not exceed 30 students for each classroom teacher, except that the student-teacher ratio may exceed that limit:

(1) in a program provided for the purposes prescribed by Subsection (b)(2) or another special enrichment course or in a physical education course; or

(2) if the board determines that a class with a higher student-teacher ratio would contribute to the educational development of the students in the class.

(f) The academy shall provide the university-level curriculum in a manner that is appropriate for the social, psychological, emotional, and physical development of high school juniors and seniors. The administrative and counseling personnel of the academy shall provide continuous support to and supervision of students.

(g) For each student enrolled in the academy, the academy is entitled to allotments from the foundation school fund under Chapter 42 as if the academy were a school district without a tier one local share for purposes of Section 42.253. If in any academic year the amount of the allotments under this subsection exceeds the amount of state funds paid to the academy in the first fiscal year of the academy's operation, the commissioner of education shall set aside

from the total amount of funds to which school districts are entitled under Section 42.253(c) an amount equal to the excess amount and shall distribute that amount to the academy. After deducting the amount set aside and paid to the academy by the commissioner of education under this subsection, the commissioner of education shall reduce the amount to which each district is entitled under Section 42.253(c) in the manner described by Section 42.253(h). A determination of the commissioner of education under this subsection is final and may not be appealed.

(h) The board may use any available money, enter into contracts, and accept grants, including matching grants, federal grants, and grants from a corporation or other private contributor, in establishing and operating the academy. Money spent by the academy must further the purposes of the academy prescribed by Subsection (b).

(i) The liability of the state under Chapters 101 and 104, Civil Practice and Remedies Code, is limited for the academy and employees assigned to the academy and acting on behalf of the academy to the same extent that the liability of a school district and an employee of the school district is limited under Sections 22.0511, 22.0512, and 22.052 of this code and Section 101.051, Civil Practice and Remedies Code. An employee assigned to the academy is entitled to representation by the attorney general in a civil suit based on an action or omission of the employee in the course of the employee's employment, limits on liability, and indemnity under Chapters 104 and 108, Civil Practice and Remedies Code.

(j) Except as otherwise provided by this section, the academy is not subject to the provisions of this code, or to the rules of the Texas Education Agency, regulating public schools.

Sec. 88.116. TEXT OF COMPACT. The South Central Interstate

Forest Fire Protection Compact reads as follows:

SOUTH CENTRAL INTERSTATE FOREST FIRE PROTECTION COMPACT

ARTICLE I.

The purpose of this compact is to promote effective prevention and control of forest fires in the South Central region of the United States by the development of integrated forest fire plans, by the maintenance of adequate forest fire fighting services by the member States, by providing for mutual aid in fighting forest fires among the compacting States of the region and with States which are party to other Regional Forest Fire Protection compacts or agreements, and for more adequate forest development.

ARTICLE II.

This compact shall become operative immediately as to those States ratifying it whenever any two or more of the States of Arkansas, Louisiana, Mississippi, Oklahoma, and Texas which are contiguous have ratified it and Congress has given consent thereto. Any State not mentioned in this article which is contiguous with any member State may become a party to this compact, subject to approval by the legislature of each of the member States.

ARTICLE III.

In each State, the State Forester or officer holding the equivalent position who is responsible for forest fire control shall act as compact administrator for that State and shall consult with like officials of the other member States and shall implement cooperation between such States in forest fire prevention and control.

The compact administrators of the member States shall organize to coordinate the services of the member States and provide administrative integration in carrying out the purposes of this compact.

There shall be established an advisory committee of legislators, representatives of the Board of Directors of the Texas Agricultural and Mechanical College System, and forestry or forest products industries representatives, which shall meet from time to time with the compact administrators. Each member State shall name one member of the Senate and one member of the House of Representatives, and the Governor of each member State shall appoint one representative who shall be associated with forestry or forest products industries, and a member of the Board of Directors of the Texas Agricultural and Mechanical College System, to comprise the membership of the advisory

committee. Action shall be taken by a majority of the compacting States, and each State shall be entitled to one vote.

The compact administrators shall formulate and, in accordance with need, from time to time, revise a regional forest fire plan for the member States.

It shall be the duty of each member State to formulate and put in effect a forest fire plan for that State and take such measures as may be necessary to integrate such forest fire plan with the regional forest fire plan formulated by the compact administrators.

ARTICLE IV.

Whenever the State forest fire control agency of a member State requests aid from the State forest fire control agency of any other member State in combating, controlling or preventing forest fires, it shall be the duty of the State forest fire control agency of that State to render all possible aid to the requesting agency which is consonant with the maintenance of protection at home.

ARTICLE V.

Whenever the forces of any member State are rendering outside aid pursuant to the request of another member State under this compact, the employees of such State shall, under the direction of the officers of the State to which they are rendering aid, have the same powers (except the power of arrest), duties, rights, privileges and immunities as comparable employees of the State to which they are rendering aid.

No member State or its officers or employees rendering outside aid pursuant to this compact shall be liable on account of any act or omission on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith; provided, that nothing herein shall be construed as relieving any person from liability for his own negligent act or omission, or as imposing liability for such negligent act or omission upon any State.

All liability, except as otherwise provided herein, that may arise either under the laws of the requesting State or under the laws of the aiding State or under the laws of a third State on account of or in connection with a request for aid, shall be assumed and borne by the requesting State.

Any member State rendering outside aid pursuant to this compact shall be reimbursed by the member State receiving such aid for any loss or damage to, or expense incurred in the operation of any

equipment answering a request for aid, and for the cost of all materials, transportation, wages, salaries and maintenance of employees and equipment incurred in connection with such request; provided, that nothing herein contained shall prevent any assisting member State from assuming such loss, damage, expense or other cost or from loaning such equipment or from donating such service to the receiving member State without charge or cost.

Each member State shall provide for the payment of compensation and death benefits to injured employees and the representatives of deceased employees in case employees sustain injuries or are killed while rendering outside aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such State.

For the purposes of this compact the term "employee" shall include any volunteer or auxiliary legally included within the forest fire fighting forces of the aiding State under the laws thereof.

The compact administrators shall formulate procedures for claims and reimbursement under the provisions of this article, in accordance with the laws of the member States.

ARTICLE VI.

Ratification of this compact shall not be construed to affect any existing statute so as to authorize or permit curtailment or diminution of the forest fire fighting forces, equipment, services or facilities of any member State.

Nothing in this compact shall be construed to limit or restrict the powers of any State ratifying the same to provide for the prevention, control and extinguishment of forest fires, or to prohibit the enactment or enforcement of State laws, rules or regulations intended to aid in such prevention, control and extinguishment in such State.

Nothing in this compact shall be construed to affect any existing or future cooperative relationship or arrangement between the United States Forest Service and a member State or States.

ARTICLE VII.

The compact administrators may request the United States Forest Service to act as the primary research and coordinating agency of the South Central Interstate Forest Fire Protection Compact in cooperation with the appropriate agencies in each State, and the United States Forest Service may accept the initial responsibility in preparing and presenting to the compact administrators its

recommendations with respect to the regional fire plan. Representatives of the United States Forest Service may attend meetings of the compact administrators.

ARTICLE VIII.

The provisions of Articles IV and V of this compact which relate to mutual aid in combating, controlling or preventing forest fires shall be operative as between any State party to this compact and any other State which is party to a regional forest fire protection compact in another region; provided, that the Legislature of such other State shall have given its assent to such mutual aid provisions of this compact.

ARTICLE IX.

This compact shall continue in force and remain binding on each State ratifying it until the legislature or the Governor of such State takes action to withdraw therefrom. Such action shall not be effective until six months after notice thereof has been sent by the chief executive of the State desiring to withdraw to the chief executives of all States then parties to the compact.

SUBTITLE G. NON-BACCALAUREATE SYSTEM
CHAPTER 130. JUNIOR COLLEGE DISTRICTS
SUBCHAPTER A. GENERAL PROVISIONS

Sec. 130.001. SUPERVISION BY COORDINATING BOARD, TEXAS COLLEGE AND UNIVERSITY SYSTEM. (a) The Coordinating Board, Texas College and University System, referred to as the coordinating board, shall exercise general control of the public junior colleges of Texas.

(b) The coordinating board shall have the responsibility for adopting policies, enacting regulations, and establishing general rules necessary for carrying out the duties with respect to public junior colleges as prescribed by the legislature, and with the advice and assistance of the commissioner of higher education, shall have authority to:

(1) authorize the creation of public junior college districts as provided in the statutes, giving particular attention to the need for a public junior college in the proposed district and the ability of the district to provide adequate local financial support;

(2) dissolve any public junior college district which has failed to establish and maintain a junior college within three years from the date of its authorization;

(3) adopt standards for the operation of public junior colleges and prescribe the rules and regulations for such colleges;

(4) require of each public junior college such reports as deemed necessary in accordance with the coordinating board's rules and regulations; and

(5) establish advisory commissions composed of representatives of public junior colleges and other citizens of the state to provide advice and counsel to the coordinating board with respect to public junior colleges.

Acts 1969, 61st Leg., p. 2993, ch. 889, Sec. 1. Renumbered from Education Code Sec. 51.001 by Acts 1971, 62nd Leg., p. 3280, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 130.0011. PUBLIC JUNIOR COLLEGES; ROLE AND MISSION.

Texas public junior colleges shall be two-year institutions primarily serving their local taxing districts and service areas in Texas and offering vocational, technical, and academic courses for certification or associate degrees. Continuing education, remedial and compensatory education consistent with open-admission policies, and programs of counseling and guidance shall be provided. Each institution shall insist on excellence in all academic areas-- instruction, research, and public service. Faculty research, using the facilities provided for and consistent with the primary function of each institution, is encouraged. Funding for research should be from private sources, competitively acquired sources, local taxes, and other local revenue.

Added by Acts 1987, 70th Leg., ch. 823, Sec. 2.01, eff. June 20, 1987.

For expiration of Subsections (b-1), (b-2), and (b-3), see Subsection (b-3).

Sec. 130.0012. BACCALAUREATE DEGREE PROGRAMS. (a) The Texas Higher Education Coordinating Board shall authorize public junior colleges to offer baccalaureate degree programs in the fields of applied science and applied technology under this section. Offering a baccalaureate degree program under this section does not otherwise alter the role and mission of a public junior college.

(b) The coordinating board shall authorize baccalaureate degree programs at each public junior college that previously participated in a pilot project to offer baccalaureate degree programs.

(b-1) The coordinating board shall establish a pilot project to examine the feasibility and effectiveness of authorizing baccalaureate degree programs in the field of dental hygiene at a public junior college that offers a degree program in that field, has a main campus located in the county seat of a county with a population greater than 200,000, and includes territory in at least six public school districts located in two counties. Subsection (g) does not apply to junior-level and senior-level courses offered under this subsection. In its recommendations to the legislature relating to state funding for public junior colleges, the coordinating board shall recommend that junior-level and senior-level courses offered

under this subsection by a public junior college receive the same state support as other courses offered by the public junior college.

(b-2) Not later than January 1, 2017, the coordinating board shall prepare a progress report on the pilot project established under Subsection (b-1). Not later than January 1, 2019, the coordinating board shall prepare a report on the effectiveness of the pilot project, including any recommendations for legislative action regarding the offering of baccalaureate degree programs in the field of dental hygiene by a public junior college. The coordinating board shall deliver a copy of each report to the governor, the lieutenant governor, the speaker of the house of representatives, and the chair of the standing committee of each house of the legislature with primary jurisdiction over higher education. Unless the authority to continue offering a baccalaureate degree program in the field of dental hygiene is continued by the legislature, a public junior college may not:

- (1) enroll a new student in a baccalaureate degree program under the pilot project after the 2019 fall semester;
- (2) offer junior-level or senior-level courses for those degree programs after the 2021 fall semester, unless the coordinating board authorizes the college to offer those courses; or
- (3) award a baccalaureate degree under the pilot project after the 2021 fall semester, unless the coordinating board approves the awarding of the degree.

(b-3) This subsection and Subsections (b-1) and (b-2) expire on the first June 15 following the first regular legislative session that occurs after the fourth anniversary of the date a public junior college offering a degree program in the field of dental hygiene under Subsection (b-1) meets the accreditation requirements of Subsection (c).

(c) A public junior college offering a baccalaureate degree program under this section must meet all applicable accreditation requirements of the Commission on Colleges of the Southern Association of Colleges and Schools.

(d) A public junior college offering a baccalaureate degree program under this section may not offer more than five baccalaureate degree programs at any time. The degree programs are subject to the continuing approval of the coordinating board.

(e) In determining what baccalaureate degree programs are to be offered, the coordinating board shall consider:

(1) the need for the degree programs in the region served by the junior college;

(2) how those degree programs would complement the other programs and course offerings of the junior college;

(3) whether those degree programs would unnecessarily duplicate the degree programs offered by other institutions of higher education; and

(4) the ability of the junior college to support the program and the adequacy of the junior college's facilities, faculty, administration, libraries, and other resources.

(f) Each public junior college that offers a baccalaureate degree program under this section must enter into an articulation agreement for the first five years of the program with one or more general academic teaching institutions to ensure that students enrolled in the degree program have an opportunity to complete the degree if the public junior college ceases to offer the degree program. The coordinating board may require a general academic teaching institution that offers a comparable degree program to enter into an articulation agreement with the public junior college as provided by this subsection.

(g) In its recommendations to the legislature relating to state funding for public junior colleges, the coordinating board shall recommend that a public junior college receive substantially the same state support for junior-level and senior-level courses offered under this section as that provided to a general academic teaching institution for substantially similar courses. In determining the contact hours attributable to students enrolled in a junior-level or senior-level course offered under this section used to determine a public junior college's proportionate share of state appropriations under Section 130.003, the coordinating board shall weigh those contact hours as necessary to provide the junior college the appropriate level of state support to the extent state funds for those courses are included in the appropriations. This subsection does not prohibit the legislature from directly appropriating state funds to support junior-level and senior-level courses offered under this section.

(h) Each public junior college offering a baccalaureate degree program under this section shall prepare a biennial report on the operation and effectiveness of the junior college's baccalaureate degree programs and shall deliver a copy of the report to the

coordinating board in the form and at the time determined by the coordinating board.

(j) The coordinating board shall prescribe procedures to ensure that each public junior college that offers a degree program under this section informs each student who enrolls in the degree program of the articulation agreement entered into under Subsection (f) for the student's degree program.

(k) The coordinating board shall adopt rules as necessary for the administration of this section.

(l) In this section, "general academic teaching institution" and "institution of higher education" have the meanings assigned by Section 61.003.

Sec. 130.0021. CONVEYANCE OF CERTAIN REAL PROPERTY. A public

junior college or a public junior college district may donate, exchange, convey, sell, or lease land, improvements, or any other interest in any real property for less than the fair market value of the real property interest if the donation, conveyance, exchange, sale, or lease is being made to a university system and the governing board of the public junior college or the public junior college district also finds that the donation, conveyance, exchange, sale, or lease of the interest promotes a public purpose related to higher education within the service area of the public junior college or the public junior college district.

Sec. 130.003. STATE APPROPRIATION FOR PUBLIC JUNIOR COLLEGES.

(a) There shall be appropriated biennially from money in the state treasury not otherwise appropriated an amount sufficient to supplement local funds for the proper support, maintenance, operation, and improvement of those public junior colleges of Texas that meet the standards prescribed by this chapter. The sum shall be allocated on the basis of contact hours within categories developed, reviewed, and updated by the coordinating board.

(b) To be eligible for and to receive a proportionate share of the appropriation, a public junior college must:

(6) for a public junior college established on or after September 1, 1986, levy and collect ad valorem taxes as provided by law for the operation and maintenance of the public junior college.

(c) All funds allocated under the provisions of this code, with the exception of those necessary for paying the costs of audits as provided, shall be used exclusively for the purpose of paying salaries of the instructional and administrative forces of the several institutions and the purchase of supplies and materials for instructional purposes.

(d) Only those colleges which have been certified as prescribed in Section 61.063 of this code shall be eligible for and may receive any appropriation made by the legislature to public junior colleges.

(e) The purpose of each public community college shall be to provide:

(1) technical programs up to two years in length leading to associate degrees or certificates;

(2) vocational programs leading directly to employment in semi-skilled and skilled occupations;

(3) freshman and sophomore courses in arts and sciences;

(4) continuing adult education programs for occupational or cultural upgrading;

(1) "Category 1 junior college" means a junior college having not more than 2,500 students in fall head count enrollment for the previous fiscal year and not more than \$300,000 of local taxes collected, excluding taxes for debt service, in the previous fiscal year.

(2) "Category 2 junior college" means a junior college having more than 2,500 students in fall head count enrollment for the previous fiscal year or more than \$300,000 of local taxes collected, excluding taxes for debt service, in the previous fiscal year.

(b) Money appropriated for payment to junior colleges under the authority of Section 130.003 of this code shall be paid to each eligible category 1 junior college out of the public junior college reimbursement fund as follows:

(d) The amount of any installment required by this section may be modified to provide the junior college with the proper amount to which the junior college may be entitled by law and to correct errors in the allocation or distribution of funds. If an installment under this section is required to be equal to other installments, the amount of other installments may be adjusted to provide for that equality. A payment under this section is not invalid because it is not equal to other installments.

Sec. 130.00311. METHODS OF INCLUSION OR PARTICIPATION IN JUNIOR COLLEGE DISTRICT. (a) The following are methods that may be used to be included in or to participate in a junior college district:

(1) the registered voters of territory that is not located in a junior college district may petition to join an existing junior college district or to establish a new junior college district under the other provisions of this chapter; or

(2) a junior college district may enter into an agreement with an entity or community under Section 130.0081 to provide services to the entity or community.

(b) If a political subdivision or part of a political subdivision is not located in a junior college district or has not entered into an agreement under Section 130.0081, a person who resides in that territory and who is a student of a junior college district shall be charged tuition and fees at the rate established under Section 130.0032(d).

Added by Acts 2005, 79th Leg., Ch. 1100 (H.B. [2221](#)), Sec. 1, eff. June 18, 2005.

Sec. 130.0032. TUITION FOR STUDENTS RESIDING OUTSIDE OF DISTRICT. (a) The governing board of a public junior college district may allow a person who resides outside the district and who owns property subject to ad valorem taxation by the district, or a

dependent of the person, to pay tuition at the rate applicable to a student who resides in the district.

(b) The governing board of a public junior college district may allow a person who resides outside the district and in the taxing district of a contiguous public junior college district to pay tuition and fees at the rate applicable to a student who resides in the district.

(b-1) The governing board of a public junior college district that includes at least six campuses shall allow a person who resides outside the district and in the taxing district of a contiguous public junior college district to pay tuition and fees at the rate applicable to a student who resides in the district for enrollment at a campus located within an area in which the person resides that, as of January 1, 2013, is designated as a super neighborhood by a municipality with a population greater than two million.

(c) The governing board of a public junior college district may allow a person who resides outside the district to pay tuition and fees at a rate less than the rate applicable to other persons residing outside the district, but not less than the rate applicable to a student who resides in the district, if the person:

(1) resides within the service area of the district;

(2) does not reside in an independent school district that meets the criteria of the coordinating board for the establishment of a junior college district under Section 130.013; and

(3) demonstrates financial need in accordance with rules adopted by the Texas Higher Education Coordinating Board.

(d) The governing board of a junior college district shall establish the rate of tuition and fees charged to a student who resides outside the district by considering factors such as:

(1) the sufficiency of the rate to promote taxpayer equity by encouraging areas benefiting from the educational services of the district to participate in financing the education of students from that area;

(2) the extent to which the rate will ensure that the cost to the district of providing educational services to a student who resides outside the district is not financed disproportionately by the taxpayers residing within the district; and

(3) the rate that would generate tuition and fees equal to the total amount of tuition and fees charged to a similarly situated student who resides in the district plus an amount per credit hour

determined by dividing the total amount of ad valorem taxes imposed by the district in the tax year preceding the year in which the academic year begins by the total number of credit hours for which the students who were residents of the district enrolled in the district in the preceding academic year.

Sec. 130.0033. PILOT PROJECT: REDUCED TUITION FOR CERTAIN COURSES. (a) The Texas Higher Education Coordinating Board shall establish a pilot project to measure the impact of reducing tuition for junior college courses offered at times of low enrollment demand in order to promote greater access to higher education and more efficient use of junior college facilities and resources. The coordinating board shall select a reasonable number of public junior colleges to participate in the pilot project.

(b) The governing board of a public junior college selected to participate in the pilot project may charge tuition for a course or courses at a rate established by the governing board that is less than the rate otherwise required by Section 54.051 or other law if the governing board finds that the reduced tuition rate is reasonably necessary to enable the junior college to make efficient use of its facilities or faculty. The finding must be stated in the order or resolution establishing the reduced tuition rate.

(c) Charging tuition at a reduced rate under this section does not affect the right of the public junior college to a proportionate share of state appropriations under Section 130.003 for the contact hours attributable to students paying tuition at the reduced rate.

(d) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 1083, Sec. 25(23), eff. June 17, 2011.

Sec. 130.0034. TUITION FOR REPEATED COURSES. (a) The governing board of a public junior college district may charge a student a higher rate of tuition than the tuition that would otherwise be charged for a course in which the student enrolls if:

(1) the student has previously enrolled in the same course or a course of substantially the same content and level two or more times; and

(2) the student's enrollment in the course is not included in the contact hours used to determine the junior college's proportionate share of state appropriations under Section 130.003.

(b) This section does not apply to a non-degree-credit developmental course.

(c) The total amount of tuition charged to the student under this section for the repeated course may not exceed the full cost of instruction for the course with respect to the student.

Added by Acts 2005, 79th Leg., Ch. 1220 (H.B. 994), Sec. 1, eff. June 18, 2005.

Sec. 130.0035. PERFORMANCE REPORTS. (a) As soon as practicable after the end of each academic year, a junior college district shall prepare an annual performance report for that academic year. The report shall be prepared in a form that would enable any interested person, including a prospective student, to understand the information in the report and to compare the information to similar information for other junior college districts. A junior college district shall make the report available to any person on request.

(b) The report must include the following information for the junior college district for the academic year covered by the report:

(1) the rate at which students completed courses attempted;

(2) the number and types of degrees and certificates awarded;

(3) the percentage of graduates who passed licensing exams related to the degree or certificate awarded, to the extent the information can be determined;

(4) the number of students or graduates who transfer to or are admitted to a public university;

(5) the passing rates for students required to be tested under Section 51.306;

(6) the percentage of students enrolled who are academically disadvantaged;

(7) the percentage of students enrolled who are economically disadvantaged;

(8) the racial and ethnic composition of the district's student body; and

(9) the percentage of student contact hours taught by full-time faculty.

(c) The Legislative Budget Board shall be responsible for recommending standards for reports under this section, in consultation with junior college districts, the Texas Higher Education Coordinating Board, and the governor's office of budget and planning.

(d) Expired.

Sec. 130.0036. REPORT ON STUDENT ENROLLMENT STATUS. (a) In the form and manner and at the times required by the Texas Higher Education Coordinating Board, a junior college district shall report to the coordinating board on the enrollment status of students of the junior college district. The report must include information on:

(1) students seeking a degree;

(2) students seeking a certificate;

(3) students enrolled in workforce continuing education courses;

Sec. 130.004. AUTHORIZED TYPES OF PUBLIC JUNIOR COLLEGES. (a) By complying with the provisions of the appropriate following sections of this chapter a public junior college and/or district of any one of the following classifications may be established:

- (1) an independent school district junior college;
- (2) a city junior college;
- (3) a union junior college;
- (4) a county junior college;
- (5) a joint-county junior college; and
- (6) a public junior college as a part or division of a

regional college district.

(b) As used in this chapter, the two general authorized types of junior colleges are:

(1) public junior colleges, which must consist of freshman and sophomore college work taught separately or in conjunction with the junior and senior years of high school and the course of study of such work must be submitted to and approved before being offered by the Coordinating Board, Texas College and University System; and

(2) a junior college division of a regional college, as that type of institution is defined in Subchapter F of this chapter, which operates under the laws applicable to public junior colleges in Texas.

(c) All junior college districts, whether established, organized, and/or created, or attempted to be established, organized, and/or created, by vote of the people residing in those districts, or by action of the county school boards, or by action of the county judge, or by action of the commissioners courts, or by action of state educational officers or agencies, or by a combination of any two or more of the same, which districts have previously been

(b) Any such college district established and maintained as provided in this chapter shall be known as a junior college district.

Sec. 130.012. PETITION TO ESTABLISH. (a) Whenever it is proposed to establish a junior college district in any type of unit authorized by Section 130.011 of this code, a petition praying for an election, signed by not less than 10 percent of the qualified electors of the proposed district shall be presented to the school board of trustees of the district or city, which shall:

(1) pass upon the legality and genuineness of the petition; and

(2) forward the petition, if approved, to the coordinating board.

(b) Any petition authorized by this section shall also incorporate a request for the proper authorities, in the event an election is ordered for the creation of such district, to submit at the same election the questions of issuing bonds and levying bond taxes, and levying maintenance taxes, in the event the district is created, not to exceed the limits provided in Section 130.122 of this code.

coordinating board with the advice of the commissioner of higher education to determine whether or not the conditions set forth in Sections 130.012 and 130.032 of this code have been complied with, and also whether, considering the geographic location of colleges already established, it is feasible and desirable to establish the proposed junior college district. In the exercise of this authority the board shall develop and publish criteria to be used as a basis for determining the need for a public junior college in the proposed district. The board shall determine whether programs in a proposed institution would create unnecessary duplication or seriously harm programs in existing community college districts. It shall be the duty of the coordinating board to consider the needs and the welfare of the state as a whole, as well as the welfare of the community involved. The decision of the coordinating board shall be final and shall be transmitted through the commissioner of higher education to the local school board, along with the order of the coordinating board authorizing further procedure in the establishment of the junior college district, if the coordinating board endorses its establishment.

Such order shall:

- (1) contain a description of the metes and bounds of the junior college district to be formed; and
- (2) fix the date for the election.

(b) If a majority of the electors voting at the election shall be in favor of the creation of a junior college district, the

district shall be deemed to be formed and created. The local school board shall make a canvass of the returns and declare the result of the election within 10 days after holding the election, and enter an order on the minutes of the board as to the result of the election.

 (a) A junior college established by an independent school district or city that has assumed control of schools already validated or established pursuant to the provisions of this chapter may be governed, administered, and controlled by and under the direction of a separate board of trustees, which may be placed in authority by either of the following procedures:

(1) the board of trustees of an independent school district or city school district which has the management, control, and operation of a junior college may divest itself of the management, control, and operation of that junior college so maintained and operated by the school board by appointing for the junior college district a separate board of trustees of nine members; or

(2) the board of trustees of any independent school district or city school district which has the control and management of a junior college may be divested of its control and management of that junior college by the procedure prescribed in Section 130.017 of

this code.

In the first two years in which the junior college district levies an ad valorem tax, the tax rate adopted by the governing body may not exceed the rate that, if applied to the total taxable value submitted to the governing body under Section 26.04, Tax Code, would impose an amount equal to the amount of taxes of the school district dedicated to the junior college under Subsection (e) of Section 20.48 of this code in the last dedication before the divestment. In subsequent years, the tax rate of the junior college district is subject to Section 26.07, Tax Code.

(b) Before the governing board of the junior college district may order an annexation election, the board must hold a public hearing within the territory proposed for annexation. The hearing must be held not earlier than the 45th day and not later than the 30th day before the date the board issues the order for the election.

(c) Not later than the 30th day before the date of a public hearing held under Subsection (b), the board shall complete and publish a service plan for the territory proposed for annexation. The service plan is informational only and must include:

- (1) the maximum property tax rate that the board may adopt;
- (2) the most recent property tax rate adopted by the board and any tax rate increase proposed or anticipated to occur after the annexation;

(f) The election shall be held only in the territory proposed for annexation, and only those registered voters residing in that territory are permitted to vote.

(g) The ballot shall be printed to provide for voting for or against the proposition: "Approving the annexation by the _____ (name of junior college district) of the following territory: _____ (with the blank filled in with a description of the territory proposed for annexation), and authorizing the imposition of an ad valorem tax for junior college purposes, which is currently set at a rate of _____ (with the blank filled in with the ad valorem tax rate of the district for the current year or, if that rate has not been adopted, the tax rate for the preceding year) per \$100 valuation of taxable property."

(h) The measure is adopted if the measure receives a favorable vote of a majority of those voters voting on the measure.

(i) If the measure is adopted, the governing board of the district shall enter an order declaring the result of the election and that the territory is annexed to the junior college district on the date specified in the order.

(j) If the proposition is adopted and the governing board is elected from single-member districts, the governing board in the

annexation order entered under Subsection (i) shall assign the new territory to one or more of the current single-member districts.

(k) The annexation of territory and any resulting change in the single-member districts from which members of the governing board are elected does not affect the term of a member of the governing board serving on the date the annexation or redistricting takes effect. The governing board shall provide that each member of the governing board representing a single-member district who is holding office on the date the annexation takes effect serve the remainder of the member's term and represent a single-member district in the expanded junior college district for that term regardless of whether the member resides in that single-member district.

(l) If the measure is not adopted at the election, another election to annex all or part of the same territory may not be held earlier than one year after the date of the election at which the measure is not adopted.

(c) Except as otherwise provided by this section, Section 130.065 applies to an action taken under this section, including the provisions of Section 130.065 requiring a petition to be submitted before an election may be called.

Sec. 130.070. DISANNEXATION OF TERRITORY COMPRISING AN INDEPENDENT SCHOOL DISTRICT. (a) The territory of an independent school district which is the only school district that has been annexed to a countywide independent school district junior college district in an adjoining county may be disannexed from such countywide independent school district junior college district and constituted as a separate independent school district junior college district in accordance with the provisions of this section, provided that the countywide independent school district junior college district has no outstanding bonded indebtedness which was incurred after the annexation of such independent school district.

(b) The proposed disannexation and creation of a separate junior college district shall be initiated by a petition signed by not less than five percent (5%) of the registered voters of the independent school district seeking disannexation. The petition shall be presented to the board of trustees of the independent school district seeking to be disannexed, which shall pass upon the legality and genuineness of the petition and forward the petition, if approved, to the coordinating board.

(c) If the petition is found to be in order and all statutory provisions have been complied with, the coordinating board shall approve the petition and notify the board of trustees of the independent school district seeking to be disannexed, of such approval. The board of trustees of the independent school district seeking disannexation shall then order an election to be held in the school district within a time not less than twenty (20) days nor more than thirty (30) days after the order is issued. At the election the ballots shall be printed to provide for voting for or against the proposition: "Disannexation of the _____ Independent School from the _____ Junior College District, and creation of the _____ Junior College District with boundaries coterminous with the boundaries of the _____ Independent School District" (the blanks to be filled in as appropriate). All expenses incurred in holding the election shall be paid by the independent school district ordering such election.

(d) The board of trustees shall make a canvass of the returns and declare the result of the election within ten (10) days after holding the election and shall enter an order on the minutes of the board as to the result of the election. If a majority of the votes cast are in favor of disannexation and creation of a separate junior college district, such independent school district shall be deemed disannexed and constituted as a separate junior college district.

(e) If the creation of the separate junior college district is approved, it shall be governed by the provisions of this code relating to independent school district junior colleges. The offices of the representatives of the disannexed independent school district on the governing body of the countywide independent school district junior college district shall be terminated, and the remaining members of that governing body shall continue to serve for the terms for which they were elected.

(f) Any petition for disannexation and creation of a separate junior college district may also incorporate a request for the proper authorities, in the event an election is ordered for the creation of a new district, to submit at the same election, either as a part of the disannexation issue or as a separate issue, the questions of issuing bonds and levying bond taxes and levying maintenance taxes, in the event the district is created, not to exceed the limits provided in Section 130.122 of this code.

SUBCHAPTER E. BOARDS OF TRUSTEES OF JUNIOR COLLEGE DISTRICTS

Sec. 130.081. GOVERNING BOARD OF JUNIOR COLLEGE OF INDEPENDENT SCHOOL DISTRICT. In each junior college district which is controlled and managed by, and under the jurisdiction of, the governing board of an independent school district or a city school district, such governing board shall be constituted and chosen in accordance with the laws of this state applicable to the governing board of such independent school district or city school district.

Acts 1969, 61st Leg., p. 3004, ch. 889, Sec. 1. Renumbered from Education Code Sec. 51.071 by Acts 1971, 62nd Leg., p. 3293, ch. 1024, art. 1, Sec. 1, eff. Sept. 1, 1971.

Sec. 130.082. GOVERNING BOARD OF JUNIOR COLLEGE OF OTHER THAN INDEPENDENT SCHOOL DISTRICT. (a) Except as provided by Section 130.081 or another section of this subchapter, the governing boards of all junior college districts shall be constituted and chosen as described in the provisions of this section.

(b) The official name of the governing board of the junior college district shall be the board of trustees.

(c) The official name of a junior college district shall be the "_____ Junior College District" unless the board of trustees of the district elects to call the district a community college district, in which event the official name of the junior college district shall be the "_____ Community College District." The board shall designate an appropriate and locally pertinent descriptive word or words to be filled in the appropriate blank (and may change such designation when deemed advisable) by resolution or order; provided that no two districts shall have the same or substantially similar names. A district may change its name under Section 130.005 or 130.0051. All resolutions or orders designating or changing names shall be filed immediately with the Texas Higher Education Coordinating Board and the first name filed shall have priority, and the district shall be advised of any previous filing of

any identical or substantially similar name. The name of any junior college district existing on September 1, 1997, shall remain the same until and unless it is changed under this chapter, and any change in the name of a junior college district made before that date is validated and is deemed to have been properly made. Another district may not use the name of any district whose name change is validated under this subsection.

(d) The number of members or trustees of the governing board shall be either seven or nine, in accordance with the laws applicable to the junior college district on the effective date of this code or on the date of the creation of a new district or a new board. Any seven-member board may be increased to nine, and the two additional members shall be appointed by resolution or order of the board for terms of office as prescribed in Subsection (e) of this section. Any vacancy occurring on the board through death, resignation, or otherwise, shall be filled by a special election ordered by the board or by appointment by resolution or order of the board. A person appointed to fill a vacancy in a trustee district must be a resident of that trustee district. A person appointed to fill a vacancy in the representation of the district at large must be a resident of the district at large. A special election to fill a board vacancy is conducted in the same manner as the district's general election except as provided by the applicable provisions of the Election Code. The person appointed to fill the unexpired term shall serve until the next regular election of members to the board, at which time the position shall be filled by election for a term appropriately shortened to conform with what regularly would have been the length of the term for that position. Each member of the board shall be a resident, qualified voter of the district and shall take the proper oath of office before taking up the duties thereof. Members of a board shall not receive any remuneration or emolument of office, but they shall be entitled to reimbursement for their actual expenses incurred in performing their duties, to the extent authorized and permitted by the board. The board shall elect one of its members as president of the board, and the president shall preside at meetings of said board and perform such other duties and functions as are prescribed by the board. The president of the board shall have a vote the same as the other members. The board shall elect a secretary of the board who may or may not be a member of the board, and who shall be the official custodian of the minutes, books,

records, and seal of said board, and who shall perform such other duties and functions as are prescribed by the board. The board shall be authorized to elect any other officers as deemed necessary or advisable. Officers of the board shall be elected at the first regular meeting of the board following the regular election of members of the board in even-numbered years, or at any time thereafter in order to fill a vacancy. Said board shall be authorized to appoint or employ such agents, employees, and officials as deemed necessary or advisable to carry out any power, duty, or function of said board; and to employ a president, dean, or other administrative officer, and upon the president's recommendation to employ faculty and other employees of the junior college. Said board shall act and proceed by and through resolutions or orders adopted or passed by the board and the affirmative vote of a majority of all members of the board shall be required to adopt or pass a resolution or order, and the board shall adopt such rules, regulations, and bylaws as it deems advisable, not inconsistent with this section.

(e) The basic term of office of a member of the board shall be six years, and one-third of the members of the board shall be elected at large in the district at regular elections to be held on the first Saturday in April in each even-numbered year; provided that with a seven-member board two members shall be elected in two consecutive even-numbered years and three members shall be elected in the following even-numbered year. The members of each board in office at the effective date of this act, and all subsequent members of the board, shall remain in office until the expiration of the terms for which they were elected or appointed, and until their successors shall have been elected and qualified; provided that where any existing board has held its regular elections for members of the board in odd-numbered years prior to the effective date of this act, the board shall nevertheless hold its next regular election on the first Saturday in April of the next even-numbered year following the effective date of this act, and the term of office of each incumbent member of the board shall, in effect, be lengthened by one year so as to comply with the foregoing provisions of this act. Upon the creation of a new board, or in any other situation where necessary, the members of the board shall choose by lot the terms for which they shall serve, so as to comply with the foregoing provisions. If a board is increased from seven to nine members, one of the members shall be appointed to serve until the first election at which two

members otherwise would have been elected, and the other shall be appointed to serve until the second election at which two members otherwise would have been elected, and three members shall be elected for six-year terms at each election.

(f) Members of a board shall be elected at large from each junior college district at regular elections to be called and held by the board for such purpose, at the expense of the district, on the first Saturday in April in each even-numbered year. Said elections shall be held in accordance with the Texas Election Code except as hereinafter provided, and all resident, qualified electors of the district shall be permitted to vote. Each such election shall be called by resolution or order of the board, and notice of each such election shall be given by publishing an appropriate notice, in a newspaper of general circulation in the district, at least 10 days prior to the date of the election, setting forth the date of the election, the polling place or places, the numbers of the positions to be filled, the candidates for each position and any other matters deemed necessary or advisable.

(g) The board shall designate a number for the position held by each member of the board, from one upward in consecutive numerical order in such manner that the lowest numbers shall be assigned to the members whose terms of office expire in the shortest length of time, provided that any such position number designations on existing boards under existing law at the effective date of this act shall remain in effect. At each election candidates shall be voted upon and be elected separately for each position on the board, and the name of each candidate shall be placed on the official ballot according to the number of the position for which he or she is running. A candidate receiving a majority of the votes cast for all candidates for a position shall be declared elected. If no candidate receives such a majority, then the two candidates receiving the highest number of votes shall run against each other for the position. The run-off election for all positions shall be held on a date that complies with law and shall be ordered, notice thereof given, and held, as provided herein for regular elections. Any resident, qualified elector of the district may have his or her name placed as a candidate on the official ballot for any position to be filled at each regular election by filing with the secretary of the board a written application therefor signed by the applicant, not later than 5 p.m. of the 45th day before the date of the election.

An application may not be filed earlier than the 30th day before the date of the filing deadline. Such application must state the number of the position for which he or she is a candidate, or the name of the incumbent member of the board holding the position for which he or she desires to run. The location on the ballot of the names of candidates for each position shall be chosen by lot by the board. A candidate shall be eligible to run for only one position at each election.

(h) Notwithstanding anything in this code to the contrary, the provisions of all or any part of the laws of this state in effect immediately prior to the effective date of this act and relating to the name of any junior college district or the name of its governing board, or to the number of members of its governing board, or the procedures and times of electing or choosing said members, shall remain in effect under the following conditions. If, at any time before the effective date of this act (but not thereafter), the governing board of any junior college district shall specify by resolution or order the particular provisions of the aforesaid laws applicable to it which it desires to remain in effect, then such particular provisions shall continue to apply to said board and its district; provided that at any time thereafter the governing board may make this section in its entirety applicable to it and its district by appropriate resolution or order, and thereby permanently cancel the effect of the aforesaid particular provisions of other laws. All resolutions and orders permitted by this section shall be filed immediately with the Coordinating Board, Texas College and University System.

(i) The election of trustees of a countywide junior or community college district that contains a city with a population of more than 1.18 million located primarily in a county with a population of 2 million or more shall be held on the first Saturday in April of each even-numbered year. When a runoff election is necessary, the board may order the election for a date to coincide with the date of the runoff election for city officials, if the city is holding a runoff election; otherwise, the board shall set the date of the runoff election for not later than three weeks following the regular election.

(j) Notwithstanding the election dates prescribed by this section, an election held under this section shall be held on a uniform election date as provided by law.

(b) The board of trustees shall divide the district into the appropriate number of compact trustee districts which contain as nearly as practicable an equal number of inhabitants according to the last preceding federal census. Residents of each trustee district shall be entitled to elect one member of the board, and each candidate seeking to represent a trustee district must reside in the trustee district he seeks to represent. Trustees shall, during their term of office, reside within the trustee district from which they were elected.

(c) Members of the board of trustees of the district shall serve for staggered terms of six years with the terms of one-third of the members, as nearly as may be, expiring in each even-numbered year.

(d) Repealed by Acts 1991, 72nd Leg., ch. 365, Sec. 2, eff. Sept. 1, 1991.

(e) Not later than the 90th day after the earliest date on which the board of trustees may recognize and act on the publication of the federal decennial census under Section 2058.001, Government

Code, the board of trustees shall redivide the district into the appropriate number of trustee districts if the census data indicates that the population of the most populous trustee district exceeds the population of the least populous district by more than 10 percent. Within 90 days following the effective date of an order or resolution of the board of trustees to increase the number of board members, the board of trustees shall redivide the district into the appropriate number of trustee districts as increased. At the next district election following the redistricting of the district under this subsection, each trustee district shall elect a member of the board unless the board of trustees determines that trustees shall be elected from the new trustee districts as provided by Section 130.0826, and the members elected shall draw lots for the appropriate number of two-year, four-year, and six-year terms as needed to establish staggered terms as required by Subsection (c).

(f) Any election held pursuant to the terms of this section shall be conducted in accordance with the provisions of Subsection (i), Section 130.082 of this code.

(g) Trustees elected under the provisions of this section take office on the first Tuesday in May.

Sec. 130.0822. ELECTION FROM SINGLE-MEMBER TRUSTEE DISTRICTS.

(a) The board of trustees of a junior college district may order that all or a majority of the trustees of the district be elected from single-member trustee districts.

(b) An order of the board adopted under Subsection (a) of this section must be entered not later than the 120th day before the day of the first election of trustees from single-member trustee districts.

(c) The appointment and election of trustees of the junior

college district are subject to Section 130.082 of this code, except as otherwise provided by this section.

(d) If the board orders that trustees shall be elected from single-member trustee districts, the board shall divide the junior college district into the appropriate number of trustee districts, based on the number of members of the board that are to be elected from single-member districts, and shall number each trustee district.

(e) The trustee districts must be compact and contiguous, and must be as nearly as practicable of equal population according to the last preceding federal census.

(f) Trustee districts must be drawn not later than the 90th day before the day of the first election of trustees from single-member districts.

(g) The board may provide for trustees holding office on the date of the initial election of trustees from single-member districts to serve the remainder of their terms and to represent a trustee district for that term without having residency in that trustee district.

(h) Except in the case of residents of a trustee district who are represented by a trustee serving in accordance with Subsection (g) of this section, residents of each trustee district are entitled to elect one trustee to the board. A candidate for trustee must be a resident of the trustee district the candidate seeks to represent. A trustee other than a trustee serving in accordance with Subsection (g) of this section vacates the office if he or she ceases to reside in the trustee district he or she represents.

(i) Any vacancy on the board shall be filled by appointment made by the remaining members of the board. The appointed person serves for the unexpired term.

(j) After each redistricting, all positions on the board shall be filled unless the board of trustees determines that trustees shall be elected from the new trustee districts as provided by Section 130.0826. The trustees then elected shall draw lots for staggered terms as provided by Section 130.082.

(k) Not later than the 90th day before the day of the first regular junior college district trustee election at which trustees may officially recognize and act on the last preceding federal census, the board shall redivide the district into the appropriate number of trustee districts if the census data indicates that the population of the most populous district exceeds the population of

the least populous district by more than 10 percent. Redivision of the district shall be in the manner provided for the initial division of the district.

(1) This section does not apply to a junior college district to which Section 130.081, 130.083, 130.0821, or 130.088 of this code applies, or to a junior college district required by other law to elect trustees from single-member districts. This section does not apply to the election of trustees in any district in which the election of trustees is governed by a court order so long as that order remains in effect. This section does apply to an independent school district junior college district governed by a separate board of trustees.

(b) A declaration of write-in candidacy must be filed not later than the deadline prescribed by Section 146.054, Election Code, for a write-in candidate in a city election.

for the trustees in office at the first election after the junior college district is redistricted to serve for the remainder of their terms in accordance with this section.

(b) If the board of trustees provides for the trustees in office to serve for the remainder of their terms in accordance with this section, the trustee districts established by the redistricting plan shall be filled as the staggered terms of trustees in office expire. When the board of trustees adopts a redistricting plan, the board shall determine from which new trustee district the position of each trustee in office will be filled as it becomes vacant.

(c) This section does not authorize a trustee of a junior college district to continue in office after a redistricting plan takes effect if the member no longer resides in the district from which the trustee was elected.

Sec. 130.0827. ADDITIONAL TRUSTEES FOR BLINN JUNIOR COLLEGE DISTRICT. (a) Notwithstanding any other law, in addition to the members of the board of trustees of the Blinn Junior College District elected or appointed under other provisions of this subchapter, the commissioners court of each county in which a branch campus of the district with a student enrollment greater than 10,000 is located shall appoint two members to serve on the district's board of trustees. If an advisory committee for a branch campus has been previously established, the members must be selected from the membership of the advisory committee.

(b) Members of the board of trustees appointed under this section serve two-year terms and may be appointed to serve successive terms. The commissioners court shall appoint initial members to serve a term beginning December 1, 2015.

(c) Members of the board of trustees appointed under this section may participate in the decision-making of the board to the same extent as any other member of the board except that members of the board appointed under this section by the commissioners court of a county that is not located in the Blinn Junior College District:

(1) may participate in the decision-making of the board only in matters not related to the imposition of a tax or the

Sec. 130.083. GOVERNING BOARD IN ENLARGED JUNIOR COLLEGE DISTRICT. (a) From and after May 22, 1969, those junior college districts which were on May 22, 1969, operating under Chapter 15, Acts of the 58th Legislature, 1963 (Article 2815o-1b, Vernon's Texas Civil Statutes), and to which one, or more, school districts has been annexed for junior college purposes only, may, by a majority vote of the board of regents of the junior college district, choose to operate and be governed by a board of regents.

(b) Each school district which has been annexed to the junior college district for junior colleges purposes only shall be represented by at least one member of the board of regents. If the assessed tax rolls exceed \$67,500,000, the school district shall be represented by one member of the board of regents for each \$67,500,000 of assessed value, or a major fraction thereof, on the junior college tax roll, located within the school district. The original junior college district shall be represented on the board of regents by a number of regents arrived at according to the same formula.

(c) The total number of members of the board of regents of the junior college district shall never exceed 14. When the valuation of the enlarged district increases to the point that the number of regents exceeds 14 under the formula described in Subsection (b) of this section then the board of regents of the junior college district shall set a formula, based on proportional tax values, of representation, which will produce a total of 14 members of the board of regents.

(d) The terms of office of the regents authorized by this act shall be six years. Those regents serving as regents on May 22,

1969, shall continue in office for the remainder of their respective terms and then until such time as their successors shall have been elected and qualified, and thereafter in each even-numbered year three regents shall be elected from the area originally forming the junior college district to succeed those regents whose terms are expiring, but if the number of regents becomes more or less than nine, the formula set out in Subsection (e) of this section shall be followed. All new regents added to the board of regents under the provisions of this section shall be appointed by the board of regents which orders the enlargement of the membership of such board, and shall serve until election specified in Subsection (e) of this section. All vacancies on the board of regents shall be filled at once for the unexpired term only by appointments made by the remaining members of such board.

(e) Where additional regent positions are provided under the terms of this section, the board of regents at the time of such authorization shall designate by resolution duly recorded in the minutes of such board the term to be served by each such additional regent, provided that the first regent authorized and appointed shall serve only until the next regular regent election, the second such regent shall serve until the regent election two years after the next regular regent election, and the third regent shall serve until the regent election four years after the next regular regent election, with additional regents which may be authorized to follow the same rotation of terms until all terms of additional regents provided under the terms of this section have been fixed to expire at the next regular regent election, or at the regent election two years after the next regular regent election, or at the regent election four years after the next regular election. Additional regents appointed to such terms and until such times as their successors shall have been elected and qualified, and thereafter the terms of such regents shall be for six years.

(f) Regent elections in all parts of the districts affected by the provisions of this section shall be held at the times and in the manner now provided for public junior colleges by general law. The qualified voters residing in the school district represented shall be entitled to vote in such elections. Each regent to be elected shall be a resident of the school district he is to represent and each regent to represent the original college district shall be a resident of the original college district.

(g) The provisions of this section shall be cumulative of existing laws governing elections of regents in public junior college districts.

Sec. 130.084. POWERS AND DUTIES. (a) The governing board of a junior college district shall be governed in the establishment, management, and control of a public junior college in the district by the general law governing the establishment, management, and control of independent school districts insofar as the general law is applicable.

(b) The governing board of a junior college district may set and collect with respect to a public junior college in the district any amount of tuition, rentals, rates, charges, or fees the board considers necessary for the efficient operation of the college, except that a tuition rate set under this subsection must satisfy the requirements of Section 54.051(n). The governing board may set a different tuition rate for each program, course, or course level offered by the college, including a program, course, or course level to which a provision of Section 54.051 applies, as the governing board considers appropriate to reflect course costs or to promote efficiency or another rational purpose.

Sec. 130.0845. REMOVAL OF TRUSTEE FOR NONATTENDANCE OF BOARD MEETINGS. (a) It is a ground for removal of a member of the board of trustees of a junior college district that the member is absent from more than half of the regularly scheduled board meetings that the member is eligible to attend during a calendar year, not counting an absence for which the member is excused by a majority vote of the board.

(b) The validity of an action of the board of trustees is not affected by the fact that the action is taken when a ground for removal of a member of the board exists.

(c) A member of a board of trustees may be removed for a ground provided by this section, using the procedures provided by Subchapter B, Chapter 87, Local Government Code, for removing a county official.

Added by Acts 2005, 79th Leg., Ch. 673 (S.B. 114), Sec. 1, eff. September 1, 2005.

Sec. 130.085. TUITION EXEMPTION. (a) The board of trustees of any public junior college may exempt from payment of tuition all students who are residents of the junior college district and who are enrolled for 12 or more semester credit hours, provided that this action will allow the college to participate in and benefit from funds available as provided by Sections 1-7, Title I, 64 Stat. 1100, as amended, 20 U.S.C. Secs. 236-241-1.

(b) This action by the board of trustees does not affect their authority under Section 130.123 of this code, nor does this section in any way supersede that section. This action of the board does not affect the right of the college to a proportionate share of state appropriations under Section 130.003 of this code.

Added by Acts 1971, 62nd Leg., p. 3355, ch. 1024, art. 2, Sec. 31, eff. Sept. 1, 1971.

Sec. 130.0851. TUITION EXEMPTION FOR DISTRICT EMPLOYEES. The governing board of a junior college district may exempt a district employee who enrolls in courses offered by the district from the payment of all or part of the tuition or fees charged to a student at a junior college by the district.

Added by Acts 2009, 81st Leg., R.S., Ch. 382 (H.B. 1568), Sec. 1, eff. June 19, 2009.

Sec. 130.088. BOARD OF TRUSTEES OF CERTAIN JUNIOR COLLEGE DISTRICTS. (a) If an independent school district board that has control and management of a junior college district that contains all

or part of a city with a population of more than 1,500,000 divests itself of control and management under Section 130.016 or 130.017 of this code, the appointment and election of trustees of the junior college district are subject to Sections 130.018 and 130.082 of this code, except as otherwise provided by this section.

(b) The board of trustees consists of nine members elected from trustee districts.

(c) If the board of trustees of the independent school district that divests itself of management and control of the junior college district is elected from nine single-member districts, the trustees appointed for the junior college district shall have the same initial single-member district boundaries. For the initial board members of the junior college district appointed by the independent school district board of trustees, three members shall serve terms of two years, three members shall serve terms of four years, and three members shall serve terms of six years. The trustees shall draw lots to determine the length of their terms. The terms of the initial board members shall expire on the last day of December of the odd-numbered year that does not exceed their terms.

(d) Each trustee district must be compact and contiguous and of a population to the extent practicable equal to other trustee districts.

(e) The general election for trustees shall be held every two years on the first Tuesday after the first Monday in November of the odd-numbered year or on the uniform election date chosen by the prior board under prior law.

(f) The board of trustees of the independent school district shall designate a number for each trustee district. At each election candidates are voted on and elected separately for each trustee district, and a candidate's name is placed on the official ballot according to the number of the district for which the candidate is running.

(g) The voters of each trustee district elect one trustee.

(h) If a trustee changes residence to a location outside the district from which the trustee is elected, the trustee vacates the office. Except as provided by Subsection (i) of this section, a district boundary change that results in the trustee who represents the district no longer being a resident of the district does not affect the trustee's term. That trustee serves for the remainder of the term to which elected. If the trustee changes residence to a

location that is neither in the district as it existed on the date the trustee was elected to the current term nor in the new district, the trustee's seat on the board is vacated.

(i) If a change in district boundaries occurs as a result of redistricting and places the residence of a trustee whose office is not next up for election outside the numbered district for which the trustee was elected and the trustee fails to move his residence within the new boundaries of that numbered district before the 75th day preceding the date of the first election for which the boundary changes are effective, the office is vacated and shall be filled at that election.

(j) If new territory is added to the district, the board shall temporarily assign the territory to one or more trustee districts as appropriate. Not later than the 180th day after the publication of a federal census, the board shall revise district boundaries to take account of district population changes.

(k) To be entitled to a place on the ballot, a candidate for trustee must file an application for a place on the ballot with the board secretary not later than 5 p.m. of the 45th day before election day. An application may not be filed earlier than the 30th day before the date of the filing deadline.

(l) To be elected, a trustee candidate must receive a majority of the total number of votes received by all the candidates for the position. If no candidate receives the vote required for election to a position, the board shall order a runoff election to be held in accordance with the applicable provisions of the Election Code.

(m) Trustees serve for six-year staggered terms. The terms of three members expire on the last day of December of each odd-numbered year.

(n) The board shall fill by appointment a board vacancy. The remaining members of the board, not later than the 30th day after the date on which the vacancy occurs, shall select a suitable person who resides in the applicable district to fill the board vacancy until the next regular trustee election. If the board for any reason fails or refuses to appoint a person to fill the board vacancy, the board shall order an election for the purpose of filling the vacancy for the remainder of the unexpired term. The election shall be held on the next uniform election date provided by the Election Code as long as that date does not occur before the 90th day after the date on which the vacancy occurs.

Sec. 130.089. PROHIBITED EMPLOYMENT OF OR CONTRACTING WITH FORMER TRUSTEE. A public junior college may not employ or contract with an individual who was a member of the board of trustees of the junior college before the first anniversary of the date the individual ceased to be a member of the board of trustees.

Sec. 130.090. REMEDIAL PROGRAMS FOR SECONDARY SCHOOL STUDENTS.

(a-1) The governing board of a junior college district located wholly or partly in a county with a population of more than three million may contract to provide remedial programs under Subsection (a) with the governing board of any independent school district located wholly or partly in a county with a population of more than three million.

(b) The governing board of a junior college district may exempt from tuition a student enrolled in a remedial program provided under Subsection (a).

(c) The grant of an exemption from tuition under Subsection (b) does not affect the right of a junior college to a proportionate share of state appropriations under Section 130.003 attributable to the contact hours of the junior college with the student receiving the exemption.

(d) For instances when state funding is provided to both a school district and a public junior college for a student enrolled in courses offered by a junior college under Subsection (a), the commissioner of education and the commissioner of higher education shall jointly develop a mechanism to identify and eliminate duplication of state funding.

Sec. 130.123. REVENUE BONDS. (a) The governing board (hereinafter called the "board") of each junior college district and each regional college district shall be authorized and have the power to acquire, purchase, construct, improve, enlarge, equip, operate, and/or maintain any property, buildings, structures, activities, operations, or facilities, of any nature, for and on behalf of its institution or institutions.

(b) For the purpose of carrying out any one or more of the aforesaid powers each board shall be authorized to issue its revenue bonds to be payable from and secured by liens on and pledges of all or any part of any of the revenues from any rentals, rates, charges, fees, or other resources of such board, in the manner hereinafter provided. Said bonds may be issued to mature serially or otherwise not more than 50 years from their date. In the authorization of any such bonds, each board may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other types of bonds, under such terms or conditions as may be set forth in the resolution or order authorizing the issuance of said bonds, all within the discretion of the board. Said bonds, and any interest coupons appertaining thereto, shall be negotiable instruments (provided that such bonds may be issued registrable as to principal alone or as to both principal and interest), and shall be executed, and may be made redeemable prior to maturity, and may be issued in such form, denominations, and manner, and under such terms, conditions, and details, and may be sold in such manner, at such price, and under such terms, and said bonds shall bear interest at such rate or rates, as shall be determined and provided by the board in the resolution or order, authorizing the issuance of said bonds. If so permitted in the bond resolution, and required part of the proceeds from the sale of the bonds may be used for paying interest

thereon during the period of the construction of any facilities to be provided through the issuance of said bonds, and for the payment of operation and maintenance expenses of said facilities to the extent, and for the period of time, specified in said bond resolution, and also for the creation of reserves for the payment of the principal of and interest on the bonds; and such moneys be invested, until needed, to the extent, and in the manner provided, in said bond resolution or order.

(c) Each board shall be authorized to fix and collect rentals, rates, charges, and/or fees, including student union fees, from students and others for the occupancy, use and/or availability of all or any of its property, buildings, structures, activities, operations, or facilities, of any nature, in such amounts and in such manner as may be determined by such board.

(d) Each board shall be authorized to pledge all or any part of any of its revenues from any of the aforesaid rentals, rates, charges, and/or fees to the payment of any bonds issued hereunder, including the payment of principal, interest, and any other amounts required or permitted in connection with said bonds. When any of the revenues from any such rentals, rates, charges, and/or fees are pledged to the payment of bonds, they shall be fixed and collected in such amounts as will be at least sufficient, together with any other pledged resources, to provide for all payments of principal, interest, and any other amounts required in connection with said bonds, and, to the extent required by the resolution or order authorizing the issuance of said bonds, to provide for the payment of operation, maintenance, and other expenses. Each board shall be authorized to establish and enforce such parietal rules for students and others, and to enter into such agreements regarding occupancy, use, and availability, and the amounts and collection of pledged revenues, fees, or other resources as will assure making all said required payments. Fees for the use or availability of all or any property, buildings, structures, activities, operations, or facilities, of any nature, may be pledged to the payment of said bonds, and shall be fixed and collected from all or any designated part of the students enrolled in the institution or institutions, in such amounts and in such manner as shall be determined and provided by the board in the resolution or order authorizing the issuance of the bonds, and said fees may be collected in the full amounts required or permitted herein, without regard to actual use or

availability, commencing at any time designated by the board. Said fees may be fixed and collected for the use or availability of any specifically described property, buildings, structures, activities, operations, or facilities, of any nature; or said fees may be fixed and collected as general fees for the general use or availability of the institution or institutions. Such specific and/or general fees may be fixed and collected and pledged to the payment of any issue or series of bonds issued hereunder, in the full amounts required or permitted herein, in addition to, and regardless of the existence of, any other specific or general fees at the institution or institutions; provided that each board may restrict its power to pledge such additional specific or general fees in any manner that may be provided in the resolution or order authorizing the issuance of any bonds issued hereunder, and provided that no such additional specific fees shall be pledged if prohibited by any resolution or order which authorized the issuance of any then outstanding bonds issued pursuant to any Texas statute.

(e) In addition to the revenues, fees, and other resources authorized to be pledged to the payment of bonds issued hereunder, each board further shall be authorized to pledge irrevocably to such payment, out of the tuition charges required or permitted by law to be imposed at its institution or institutions, an amount not exceeding 25 percent of the tuition charges collected from each enrolled student for each semester or term, and each board also shall be authorized to pledge to such payment all or any part of any grant, donation, or income received or to be received from the United States government or any other public or private source, whether pursuant to an agreement or otherwise.

(f) Any revenue bonds issued by any such board under this act, and any revenue bonds or notes issued by any such board under any other Texas statute and payable from tuition fees and charges and/or any part of the use fees from or revenues of any property, buildings, structures, activities, operations, or facilities at the institution or institutions, may be refunded or otherwise refinanced by such governing board, and in such case all pertinent and appropriate provisions of this section shall be fully applicable to such refunding bonds. In refunding or otherwise refinancing any such bonds or notes the governing board may, in the same authorizing proceedings, refund or refinance bonds issued pursuant to this section and bonds or notes issued pursuant to any other such Texas

statute and combine all said refunding bonds and any other additional new bonds to be issued pursuant to this section into one or more issues or series of bonds, and may provide for the subsequent issuance of additional parity bonds, or subordinate lien bonds, or other type of bonds. All refunding bonds shall be issued and delivered under such terms and conditions as may be set forth in the authorizing proceedings.

(g) All bonds permitted to be issued under this section, and the appropriate proceedings authorizing their issuance, shall be submitted to the Attorney General of the State of Texas for examination. If he finds that such bonds have been authorized in accordance with law he shall approve them, and thereupon they shall be registered by the Comptroller of Public Accounts of the State of Texas; and after such approval and registration such bonds shall be incontestable in any court, or other forum, for any reason, and shall be valid and binding obligations in accordance with their terms for all purposes.

(h) All bonds issued under this section shall be legal and authorized investments for all banks, trust companies, building and loan associations, savings and loan associations, small business investment corporations, insurance companies of all kinds and types, fiduciaries, trustees, and guardians, and for all interest and sinking funds and other public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic. Said bonds also shall be eligible and lawful security for all deposits of public funds of the State of Texas and all agencies, subdivisions, and instrumentalities thereof, including all counties, cities, towns, villages, school districts, and all other kinds and types of districts, public agencies, and bodies politic, to the extent of the market value of said bonds, when accompanied by any unmatured interest coupons appurtenant thereto.

(i) All revenue bonds heretofore approved by the Attorney General of the State of Texas and registered by the Comptroller of Public Accounts of the State of Texas which were issued, sold, and delivered by any board, and which are payable from or secured by a pledge of any revenues, use fees, tuition, or other resources of such board, are hereby validated in all respects, together with all proceedings authorizing the issuance thereof, and said bonds and

proceedings shall be valid as though they had been duly and legally issued and authorized originally.

Sec. 130.125. REVENUE OBLIGATIONS. (a) As used in this section:

(1) "Credit agreement" means a loan agreement, revolving credit agreement, agreement establishing a line of credit, letter of credit, reimbursement agreement, insurance contract, commitment to purchase obligations, purchase or sale agreement, or commitment or other contract or agreement authorized and approved by the governing body of the issuer in connection with the authorization, issuance, security, exchange, payment, purchase, or redemption of obligations or interest thereon.

(2) "Eligible project" means any project or purpose for which an issuer is authorized to issue revenue bonds pursuant to Section 130.123 of this code or any other provision of law.

(3) "Governing body" means the governing board of an issuer.

(4) "Issuer" means a junior college district or a regional college district.

(5) "Obligations" means notes, warrants, or other special obligations authorized to be issued by an issuer under the provisions

of this section and all "public securities" as defined by Section 1201.002, Government Code, which prior to the delivery thereof, have been rated by a nationally recognized rating agency for municipal securities in either one of the three highest ranking categories for short-term obligations or one of the four highest ranking categories for long-term obligations. It is provided, however, that the term "obligations" does not mean or include any obligations payable from ad valorem taxes.

(6) "Project costs" means all costs and expenses incurred in relation to an eligible project, including without limitation design, planning, engineering, and legal costs, acquisition costs of land, interest in land, rights-of-way, and easements, construction costs, costs of machinery, equipment, and other capital assets incident and related to the operation, maintenance, and administration of an eligible project, and financing costs, including interest during construction and thereafter, underwriter's discount and fees for legal, financial, and other professional services. Project costs attributable to an eligible project and incurred prior to the issuance of any obligations issued to finance an eligible project may be reimbursed from the proceeds of sale of obligations.

(b) The governing body of an issuer is hereby authorized and empowered to issue, sell, and deliver obligations and execute credit agreements in order to finance project costs of an eligible project or to refund obligations issued in connection with an eligible project, subject to the limitations contained herein. Obligations shall be secured solely by: (1) the proceeds of sale of other obligations; (2) any revenues which the issuer is authorized by any statute or constitutional provision to pledge to the payment of any obligations; or (3) any one or more of such sources, including credit agreements, all as the governing body of the issuer shall provide in the resolution or order authorizing the issuance of the obligations. Obligations shall be repaid from the source or sources securing the payment thereof, funds received from a credit agreement, or from any other revenues otherwise legally available for the payment thereof, except funds derived from ad valorem taxation.

(c) The issuance of obligations shall be authorized by resolution or order of the governing body of an issuer, which resolution or order shall fix the maximum amount of obligations to be issued or, if applicable, the maximum principal amount which may be outstanding at any time, the maximum term obligations issued and

delivered pursuant to such authorization shall be outstanding, the maximum interest rate to be borne by the obligations (within the limitations of Chapter 1204, Government Code), the manner of sale (which may be by either public or private sale), price, form, terms, conditions, and covenants thereof. The resolution or order authorizing the issuance of obligations may provide for the designation of a paying agent and registrar for the obligations and may authorize one or more designated officers or employers of the issuer to act on behalf of the issuer from time to time in the selling and delivering of obligations authorized and fixing the dates, price, interest rates, interest payment periods, and other procedures as may be specified in the resolution or order.

Obligations may be issued in such form or such denomination, payable at such time or times, in such amount or amounts or installments, at such place or places, in such form, under such terms, conditions, and details, in such manner, redeemable prior to maturity at any time or times, bearing no interest, or bearing interest at any rate or rates (either fixed, variable, floating, adjustable, or otherwise, all as determined in accordance with the resolution or order providing for the issuance of the obligations, which resolution or order may provide a formula, index, contract, or any other arrangement for the periodic determination of interest rates), not to exceed the maximum net effective interest rate allowed by law and may be signed or otherwise executed in such manner, with manual or facsimile signatures, and with or without a seal, all as shall be specified by the governing body of the issuer in the resolution or order authorizing the issuance of the obligations. The proceeds received from the sale of obligations may be deposited or invested in any manner and in such obligations as may be specified in the resolution or order or other proceedings authorizing the obligations. In the event any officer or officers whose signatures are on any obligations cease to be such officer or officers before the delivery thereof to the purchaser, such signature or signatures shall nevertheless be valid and sufficient for all purposes and the successor or successors in office of any such officers shall be fully authorized to complete the execution, authentication, or delivery of said obligations to the purchaser or purchasers thereof.

(d) The governing body of an issuer may enter into credit agreements in conjunction with the issuance, payment, sale, resale, or exchange of obligations to enhance the security for or provide for

the payment, redemption, or remarketing of the obligations and interest on the obligations or to reduce the interest payable on the obligations. A credit agreement is an agreement for professional services and shall contain the terms and conditions and be for the period that the governing body of the issuer approves. The cost to the issuer of the credit agreement may be paid from the proceeds of the sale of the obligations to which the credit agreement relates or from any other source, including revenues of the issuer that are available for the purpose of paying the obligations and the interest on the obligations or that may otherwise be legally available to make those payments.

(e) Obligations, including accrued interest, may from time to time be refinanced, renewed, or refunded by the issuance of other obligations. Credit agreements entered into by an issuer, whether pursuant to the provisions of this section or not, may be refinanced, renewed, refunded, or otherwise terminated and a new credit agreement substituted therefor by amendment to the proceedings which authorized such credit agreements and, if required to accomplish the substitution of credit agreements, outstanding bonds may be refunded with obligations.

(f) Preliminary to the issuance and delivery of obligations, the resolution or order authorizing the issuance thereof, together with any credit agreements and any contracts providing revenues and security to pay the obligations, shall be submitted to the attorney general for his review. If the attorney general shall find that such credit agreement or agreements, if any, contracts, if any, and other authorizing proceedings conform to the requirements of the Texas Constitution and this section, the attorney general shall approve them. Thereafter, the authorized obligations may be executed and delivered, exchanged, or refinanced from time to time in accordance with the authorizing proceedings. Upon such approval by the attorney general and initial delivery of any obligations so authorized, any such credit agreements, any such contracts providing revenues or security, such initial obligations, and all other obligations thereafter issued pursuant to the authorizing proceedings shall be incontestable for any cause in any court or other forum and shall be valid and binding obligations enforceable in accordance with their respective terms and provisions.

(f-1) The governing body of an "eligible issuer" may enter into credit agreements as described in Subsection (d). As used in this

subsection, "eligible issuer" means an issuer that prior to the effective date of this subsection (i) issued bonds which, prior to or simultaneously with the delivery thereof, were rated by a nationally recognized rating agency for municipal securities in one of the four highest ranking categories for long-term obligations, and (ii) reserved in the resolution or order authorizing issuance of the bonds the right, in the event of a change in state law, to substitute a credit agreement in lieu of cash and investments in a reserve fund established pursuant to the resolution or order.

(g) All obligations issued by an issuer shall constitute negotiable instruments and are investment securities governed by Chapter 8, Business & Commerce Code, notwithstanding any provisions of law or court decision to the contrary and are legal and authorized investments for banks, savings banks, trust companies, building and loan associations, savings and loan associations, insurance companies, fiduciaries, and trustees and for the sinking funds of cities, towns, villages, school districts, and other political subdivisions or public agencies of the State of Texas. Said obligations also are eligible to secure deposits of any public funds of the state or any political subdivision or public agency of the state and are lawful and sufficient security for the deposits to the extent of their market value.

(h) This section shall be construed liberally to effectuate the legislative intent and purposes of this section and all powers herein granted shall be broadly interpreted to effectuate such intent and purposes and not as a limitation of powers.

(i) In case any one or more of the provisions, clauses, or words of this section or the application of such provisions, clauses, or words to any situation or circumstance shall for any reason be held to be invalid or unconstitutional, such invalidity or unconstitutionality shall not affect any other provisions, clauses, or words of this section or the application of such provisions, clauses, or words to any other situation or circumstance, and it is intended that this section shall be severable and shall be construed and applied as if any such invalid or unconstitutional provision, clause, or word had not been included herein.

(j) This section shall be cumulative of all other laws on the subject, but this section shall be wholly sufficient authority within itself for the issuance of obligations and the performance of the other acts and procedures authorized hereby, or under any agreement,

without reference to any other laws or any restrictions or limitations contained herein. To the extent of any conflict or inconsistency between any provisions of this section and any provisions of any other law, the provisions of this section shall prevail and control; provided, however, that any issuer shall have the right to use the provisions of any other laws not in conflict with the provisions hereof to the extent convenient or necessary to carry out any power or authority, express or implied, granted by this section.

(k) When the governing body of any issuer provides in the resolution or order or other proceedings authorizing the issuance of any bond, any credit agreement, or any other agreement for a pledge or lien on revenues, income, or other resources of the issuer, or the assets of the issuer, or any fund maintained by the issuer to secure payment of the obligations or to secure payments required by a credit agreement or any other agreement, such pledge or lien shall be valid and binding in accordance with its terms without further action on the part of the issuer and without any filing or recording with respect thereto except in the records of the issuer. All such liens and pledges shall be perfected from the time of payment for and delivery of the obligations and the credit agreement or other agreement until the obligations or other payments, including those under the credit agreement, have been paid or payment of the obligations has been provided for or the terms of the credit agreement or other agreement have been satisfied in accordance with their respective terms and such lien shall be fully perfected as to items then on hand and thereafter received until the satisfaction of such obligations, and said items shall be subject to such liens or pledges without any physical delivery thereof or further act. Nothing contained in this section shall relieve any issuer of any obligation to file or record any lien on realty or submit any issue of obligations for approval by the attorney general and registration by the comptroller of public accounts.

(a) The board of trustees of a junior college district may establish and operate branch campuses, centers, or extension facilities within the junior college district's service area, provided that each branch campus, center, or extension facility and each course or program offered in such locations is subject to the prior and continuing approval of the Texas Higher Education Coordinating Board.

(b) Such branch campuses, centers, or extension facilities shall be within the role and scope of the junior college as

determined by the Texas Higher Education Coordinating Board.

(c) The board of trustees of a junior college district may accept or acquire by purchase or rent land and facilities in the name of the junior college district within the junior college district's service area.

(d) Before any course may be offered by a public junior college within the service area of another operating public junior college, it must be established that the second public junior college is not capable of or is unable to offer the course. The commissioner of higher education shall deliver to the governing body of the school district or county, as applicable, the order of the coordinating board authorizing or denying further action in the levying of a junior college district branch campus maintenance tax.

(e) The president of the board of trustees of the school district or the county judge, as applicable, shall give notice of the election in the manner provided by law for notice by the county judge of general elections.

(f) The governing body of the school district or county, as applicable, shall procure the election supplies necessary to conduct the election and shall determine the quantity of the various types of supplies to be provided for use at each precinct polling place and early voting polling place.

(g) Any qualified voter residing within the boundaries of the jurisdiction in which the tax may be levied is entitled to vote at

the election.

" (insert name of school district or name of county, as applicable).

(i) To be adopted, the measure must receive a favorable vote of a majority of those voting on the measure.

(j) Not later than the 10th day after the date of the election, the governing body shall canvass the returns of the election and shall enter an order declaring the result of the election.

(k) The proceeds of the junior college district branch campus maintenance tax may be used only as follows:

(1) to operate and maintain a junior college district branch campus and support its programs and services in the area of the political subdivision that levied the tax; and

(2) under an agreement by the applicable junior college district and the political subdivision levying the tax, to make lease payments to the political subdivision for facilities used exclusively by the branch campus that are owned by the political subdivision.

(l) The governing body of the school district or county approving the junior college district branch campus maintenance tax shall set the tax levy.

(m) The junior college district shall maintain and furnish any records and reports required by the Texas Higher Education Coordinating Board. The reports shall be made available routinely to the governing body of the jurisdiction in which the tax is levied, and to members of the general public on request.

(n) This section does not affect the authority of any jurisdiction levying a junior college district branch campus maintenance tax to create a junior college district in the jurisdiction.

Sec. 132.003. COURSE EXEMPTION: DEVELOPMENT OF CAREER SKILLS; RECREATIONAL OR AVOCATIONAL SUBJECTS. (a) Except as provided by Subsection (f), a course of instruction is exempt from this chapter if:

- (1) the length of the course is 24 classroom hours or less;
- (2) the fee for the course is less than \$500;
- (3) the course is designed to teach:
 - (A) knowledge or skills to maintain or enhance a person's competency or performance in a business, trade, or occupation; or
 - (B) recreational or avocational subjects;
- (4) on completion of the course, there is not an award of any credits or units toward the completion of another course of instruction of more than 24 classroom hours;
- (5) the person offering the course makes available to registrants a written description of the course content and any refund policy not later than the 14th day before the date the course begins;

(B) for the three-year period following the date the course is concluded, maintains records sufficient to identify the differences between advertised instructors and their qualifications and actual instructors and their qualifications; and

(8) for the three-year period following the date the course is concluded, the person offering the course maintains a record of:

(A) attendance of registrants;

(B) fees paid by registrants; and

(C) refunds paid to registrants.

(b) A general refund policy that provides for a full refund of fees at any time before the course begins satisfies the requirements of Subsection (a)(7)(A), if the general refund policy is made available in writing to registrants or potential registrants as required by Subsection (a)(5).

(c) If within the three-year record retention period the commission requests the production of records required under Subsection (a), a failure to produce the records for the commission by the person claiming an exemption for the course creates a rebuttable legal presumption that the course is not exempt from this chapter.

(d) A course of instruction that is otherwise exempt under Section 132.002 is not required to comply with the requirements of this section to qualify for an exemption from this chapter.

(e) In case of any conflict between the refund policy requirements of this section and the refund policy requirements of Section 132.061, this section prevails.

Sec. 132.061. REFUND POLICY. (a) Except as provided by Subsection (g), as a condition for granting certification each career school or college must maintain a cancellation and settlement policy that must provide a full refund of all monies paid by a student if:

(1) the student cancels the enrollment agreement or contract within 72 hours (until midnight of the third day excluding Saturdays, Sundays, and legal holidays) after the enrollment contract is signed by the prospective student; or

(2) the enrollment of the student was procured as the result of any misrepresentation in advertising, promotional materials of the school or college, or representations by the owner or representatives of the school or college.

(b) Except as provided by Subsection (g), as a condition for granting certification each career school or college must maintain a policy for the refund of the unused portion of tuition, fees, and other charges in the event the student, after expiration of the 72-hour cancellation privilege, fails to enter a program in which the student is enrolled or withdraws or is discontinued from the program at any time prior to completion, and such policy must provide:

(1) refunds for resident programs and synchronous distance education courses or programs will be based on the period of enrollment computed on the basis of course or program time;

(2) the effective date of termination for refund purposes in residence programs and synchronous distance education courses or programs will be the earliest of the following:

(A) the last date of attendance, if the student is terminated by the school or college;

(B) the date of receipt of written notice of withdrawal from the student; or

(C) 10 school days following the last date of attendance;

(3) if tuition and fees are collected in advance of entrance, and if, after expiration of the 72-hour cancellation privilege, the student does not enter the residence career school or

college, not more than \$100 shall be retained by the school or college;

(4) for the student who enters a residence program or a synchronous distance education course and who withdraws or is otherwise terminated, the school or college may retain not more than \$100 of any administrative fees charged and the minimum refund of the remaining tuition and fees will be the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the course or program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the course or program for which the student has been charged, except that a student may not collect a refund if the student has completed 75 percent or more of the total number of hours in the portion of the program for which the student has been charged on the effective date of termination;

(5) refunds of items of extra expense to the student, such as instructional supplies, books, student activities, laboratory fees, service charges, rentals, deposits, and all other such ancillary miscellaneous charges, where these items are separately stated and shown in the data furnished the student before enrollment, will be made in a reasonable manner acceptable to the commission;

(6) refunds based on enrollment in residence and synchronous distance education courses or programs will be totally consummated within 60 days after the effective date of termination;

(7) refunds for asynchronous distance education courses or programs will be computed on the basis of the number of lessons in the course or program;

(8) the effective date of termination for refund purposes in asynchronous distance education courses or programs will be the earliest of the following:

(A) the date of notification to the student if the student is terminated;

(B) the date of receipt of written notice of withdrawal from the student; or

(C) the end of the third calendar month following the month in which the student's last lesson assignment was received unless notification has been received from the student that the student wishes to remain enrolled;

(9) if tuition and fees are collected before any courses for a program have been completed, and if, after expiration of the

72-hour cancellation privilege, the student fails to begin the program, not more than \$50 shall be retained by the school or college;

(10) in cases of termination or withdrawal after the student has begun the asynchronous distance education course or program, the school or college may retain \$50 of tuition and fees, and the minimum refund policy must provide that the student will be refunded the pro rata portion of the remaining tuition, fees, and other charges that the number of courses completed and serviced by the school or college bears to the total number of courses in the program; and

(11) refunds based on enrollment in asynchronous distance education schools or colleges will be totally consummated within 60 days after the effective date of termination.

(c) In lieu of the refund policy herein set forth, for programs of instruction not regularly offered to the public, the commission may, for good cause shown, amend, modify, or substitute the terms of a career school's or college's policy due to the specialized nature and objective of the school's or college's program of instruction.

(d) If a program of instruction is discontinued by the career school or college and this prevents the student from completing the program, all tuition and fees paid are then due and refundable.

(e) If a refund is not made within the period required by this section, the career school or college shall pay a penalty. If the refund is made to a lending institution, the penalty shall also be paid to that institution and applied against the student's loan. The commission annually shall establish the level of the penalty at a level sufficient to provide a deterrent to the retention of student funds. The commission may exempt a school or college from the payment of the penalty if the school or college makes a good faith effort to refund the tuition, fees, and other charges but is unable to locate the student. The school or college shall provide to the commission on request documentation of the effort to locate the student.

(f) A career school or college shall record a grade of "incomplete" for a student who withdraws during the portion of a course or program for which the student is not eligible to collect a refund under Subsection (b)(4) if the student requests the grade at the time the student withdraws and the student withdraws for an appropriate reason unrelated to the student's academic status. A

student who receives a grade of incomplete may re-enroll in the course or program during the 12-month period following the date the student withdraws and complete those incomplete subjects without payment of additional tuition for that portion of the course or program.

(g) A program that is 40 hours or less of course time, or a seminar or workshop, is exempt from the 72-hour rule provided by Subsection (a). The career school or college shall maintain a policy for the refund of the unused portion of tuition, fees, and other charges in the event the student fails to enter the program or withdraws or is discontinued from the program at any time before completion of the program as provided by this section. The policy must provide that:

(1) refunds are based on the period of enrollment computed on the basis of course or program time;

(2) the effective date of termination for refund purposes is the earlier of:

(A) the last date of attendance; or

(B) the date the school or college receives written notice from the student that the student is withdrawing from the class; and

(3) the student will be refunded the pro rata portion of tuition, fees, and other charges that the number of hours remaining in the portion of the program for which the student has been charged after the effective date of termination bears to the total number of hours in the portion of the program for which the student has been charged.

(h) A closing career school or college shall, subject to Section 132.242, make a full refund to each student of the school or college who is owed a refund under this section.

(i) Each owner of a closing career school or college to which a certificate of approval has not been issued under this chapter is personally liable for the amount of any refund owed to a student under Subsection (h).

(j) The commission may adopt rules governing records necessary to make refunds authorized by this chapter.

Sec. 132.0611. REFUND POLICY FOR STUDENTS CALLED TO ACTIVE MILITARY SERVICE. As a condition to receiving a certificate of approval under this chapter, including a renewal of a certificate of approval, a career school or college must maintain, and include in the school or college's catalogue and enrollment contract, a policy under which a student of the school or college who withdraws from the school or college as a result of the student being called to active duty in a military service of the United States or the Texas National Guard may elect one of the following options for each program in which the student is enrolled:

(1) if tuition and fees are collected in advance of the withdrawal, a pro rata refund of any tuition, fees, or other charges paid by the student for the program and a cancellation of any unpaid tuition, fees, or other charges owed by the student for the portion of the program the student does not complete following withdrawal;

(2) a grade of incomplete with the designation "withdrawn-military" for the courses in the program, other than courses for which the student has previously received a grade on the student's transcript, and the right to re-enroll in the program, or a substantially equivalent program if that program is no longer available, not later than the first anniversary of the date the student is discharged from active military duty without payment of additional tuition, fees, or other charges for the program other than any previously unpaid balance of the original tuition, fees, and charges for books for the program; or

(3) the assignment of an appropriate final grade or credit for the courses in the program, but only if the instructor or instructors of the program determine that the student has:

(A) satisfactorily completed at least 90 percent of the required coursework for the program; and

(B) demonstrated sufficient mastery of the program material to receive credit for completing the program.

Sec. 132.064. NONQUALIFICATION AS SMALL CAREER SCHOOL AND COLLEGE. (a) A career school or college operating as a small career school or college but that has an annual gross income from tuition and fees that exceed \$100,000 (other than a test preparation school

described by Section 132.001(10)(B) or (C)) that intends to receive a payment from federal funds under 20 U.S.C. Section 1070 et seq. or intends to receive prepayment of tuition, fees or other charges from federal or state funds shall send written notice to the commission. The commission may apply or prorate any fees paid by the school or college as a small career school or college.

(c) A career school or college that no longer qualifies as a small career school or college shall submit to the commission an amount of money equal to the difference between the fee for the small career school or college certificate of approval submitted by the school or college and the fee that the school or college would be required to submit after its qualifications as a small career school or college cease.

(d) The authority of a career school or college to operate under a small career school or college certificate of approval terminates on the final determination of issuance or denial of an initial certificate of approval. If a school or college fails to file a complete application within the period required by Subsection (b), the school or college, as a condition of issuance, must pay a late fee in an amount established by commission rule of at least \$100.

violation.

(c) If, after examination of a possible violation and the facts relating to that possible violation, the commission concludes that a violation has occurred, the commission shall issue a preliminary report that states the facts on which the conclusion is based, the fact that an administrative penalty is to be imposed, and the amount of the penalty to be assessed. Not later than the 10th day after the date on which the commission issues the preliminary report, the commission shall send a copy of the report to the person charged with the violation, together with a statement of the right of the person to a hearing relating to the alleged violation and the amount of the penalty.

violation and the amount of the penalty and file with the court a sworn affidavit stating that the person is financially unable to pay the amount of the penalty.

(f) The commission's order is subject to judicial review in the same manner as an appeal of a decision to deny a certificate of approval under Section 132.102.

(g) If on review the court does not sustain the occurrence of the violation or finds that the amount of the penalty should be reduced, the commission shall remit the appropriate amount to the person charged with the violation not later than the 30th day after the date the court's judgment becomes final.

(h) If the court sustains the occurrence of the violation:

(1) the court:

- (1) order a peer review of the school or college; or
- (2) suspend the admission of students to the school or college.

(b) A peer review ordered under this section shall be conducted by a peer review team composed of knowledgeable persons selected by the commission. The commission shall attempt to provide a balance on each team between members assigned to the team who are from this state and those who are from other states. (c) If the student cannot be placed in another school or college, regardless of whether the school or college is a career school or college, the student's tuition and fees shall be refunded under Section 132.061(d).

(d) If a student does not accept a place that is available and reasonable in another school or college, regardless of whether the school or college is a career school or college, the student's tuition and fees shall be refunded under the refund policy maintained by the closing career school or college under Section 132.061.

(e) For each closed career school or college, refunds shall be paid from the career school or college tuition trust account in an amount not to exceed \$150,000.

(f) If another school or college, regardless of whether the school or college is a career school or college, assumes responsibility for the closed career school's or college's students with no significant changes in the quality of training, the student is not entitled to a refund under Subsection (c) or (d).

TITLE 4. COMPACTS

CHAPTER 160. REGIONAL EDUCATION COMPACT

Sec. 160.01. STATE POLICY. It is declared to be the policy of the State of Texas to promote the development and maintenance of regional educational services and facilities in the Southern States in the professional, technological, scientific, literary, and other fields so as to provide greater educational advantages for the citizens of the State of Texas and the citizens of the States in the Southern Region. This policy can best be accomplished under the plan embodied in the regional compact entered into by the State of Texas and thirteen other States February 8, 1948, through their respective Governors.

Acts 1971, 62nd Leg., p. 3014, ch. 994, Sec. 15, eff. Aug. 30, 1971.

Sec. 160.02. TEXT OF COMPACT. The regional education compact, as amended, reads as follows:

THE REGIONAL COMPACT

(As amended)

WHEREAS, The States who are parties hereto have during the past several years, conducted careful investigation looking toward the establishment and maintenance of jointly owned and operated regional educational institutions in the Southern States in the professional, technological, scientific, literary and other fields, so as to

provide greater educational advantages and facilities for the citizens of the several States who reside within such region; and

WHEREAS, Meharry Medical College of Nashville, Tennessee, has proposed that its lands, buildings, equipment, and the net income from its endowment be turned over to the Southern States, or to an agency acting in their behalf, to be operated as a regional institution for medical, dental and nursing education upon terms and conditions to be hereafter agreed upon between the Southern States and Meharry Medical College; which proposal, because of the present financial condition of the institution has been approved by the said States who are parties hereto; and

WHEREAS, The said States desire to enter into a compact with each other providing for the planning and establishment of regional educational facilities; now,

THEREFORE, In consideration of the mutual agreements, covenants and obligations assumed by the respective States who are parties hereto (hereinafter referred to as "States"), the said several States do hereby form a geographical district or region consisting of the areas lying within the boundaries of the contracting States, which, for the purpose of this Compact, shall constitute an area for regional education supported by public funds derived from taxation by the constituent States and derived from other sources for the establishment, acquisition, operation and maintenance of regional educational schools and institutions, for the benefit of citizens of the respective States residing within the region so established, as may be determined from time to time in accordance with the terms and provisions of this Compact.

The States do further hereby establish and create a joint agency which shall be known as the Board of Control for Southern Regional Education (hereinafter referred to as the "Board"), the members of which Board shall consist of the Governor of each State, ex officio, and four additional citizens of each State to be appointed by the Governor thereof, at least one of whom shall be selected from the field of education and at least one of whom shall be a member of the Legislature of that State. The Governor shall continue as a member of the Board during his tenure of office as Governor of the State but the members of the Board appointed by the Governor shall hold office for a period of four (4) years except that in the original appointments one Board member so appointed by the Governor shall be designated at the time of his appointment to serve an initial term of

two (2) years, one Board member to serve an initial term of three (3) years, and the remaining Board member to serve the full term of four (4) years, but thereafter the successor of each appointed Board member shall serve the full term of four (4) years. Vacancies on the Board caused by death, resignation, refusal or inability to serve, shall be filled by appointment by the Governor for the unexpired portion of the term. The officers of the Board shall be a Chairman, a Vice-Chairman, a Secretary, a Treasurer, and such additional officers as may be created by the Board from time to time. The Board shall meet annually and officers shall be elected to hold office until the next annual meeting. The Board shall have the right to formulate and establish by-laws not inconsistent with the provisions of this Compact to govern its own actions in the performance of the duties delegated to it, including the right to create and appoint an Executive Committee and a Finance Committee with such powers and authority as the Board may delegate to them from time to time. The Board may, within its discretion, elect as its Chairman a person who is not a member of the Board, provided such person resides within a signatory State; and upon such election such person shall become a member of the Board with all the rights and privileges of such membership.

It shall be the duty of the Board to submit plans and recommendations to the States from time to time for their approval and adoption by appropriate legislative action for the development, establishment, acquisition, operation and maintenance of educational schools and institutions within the geographical limits of the regional area of the States, of such character and type and for such educational purposes, professional, technological, scientific, literary, or otherwise, as they may deem and determine to be proper, necessary or advisable. Title to all such educational institutions when so established by appropriate legislative actions of the States, and to all properties and facilities used in connection therewith, shall be vested in said Board as the agency of and for the use and benefit of the said States and citizens thereof; and all such educational institutions shall be operated, maintained and financed in the manner herein set out, subject to any provisions or limitations which may be contained in the legislative Acts of the State authorizing the creation, establishment and operation of such educational institutions.

In addition to the power and authority heretofore granted, the

Board shall have the power to enter into such agreements or arrangements with any of the States and with educational institutions or agencies, as may be required in the judgment of the Board, to provide adequate services and facilities for the graduate, professional, and technical education for the benefit of the citizens of the respective States residing within the region, and such additional and general power and authority as may be vested in the Board from time to time by legislative enactment of the said States.

Any two (2) or more States who are parties of this Compact shall have the right to enter into supplemental agreements providing for the establishment, financing and operation of regional educational institutions for the benefit of citizens residing within an area which constitutes a portion of the general region herein created, such institutions to be financed exclusively by such States and to be controlled exclusively by the members of the Board representing such States, provided such agreement is submitted to and approved by the Board prior to the establishment of such institutions.

Each State agrees that, when authorized by the Legislature, it will from time to time make available and pay over to said Board such funds as may be required for the establishment, acquisition, operation and maintenance of such regional educational institutions as may be authorized by the States under the terms of this Compact, the contribution of each State at all times to be in the proportion that its population bears to the total combined population of the States who are parties hereto as shown from time to time by the most recent official published report of the Bureau of the Census of the United States of America; or upon such other basis as may be agreed upon.

This Compact shall not take effect or be binding upon any State unless and until it shall be approved by proper legislative action of as many as six (6) or more of the States whose Governors have subscribed hereto within a period of eighteen (18) months from the date hereof. When and if six (6) or more States shall have given legislative approval to this Compact within said eighteen (18) months period, it shall be and become binding upon such six (6) or more States sixty (60) days after the date of legislative approval by the sixth State, and the Governors of such six (6) or more States shall forthwith name the members of the Board from their States as hereinabove set out, and the Board shall then meet on call of the Governor of any State approving this Compact, at which time the Board

shall elect officers, adopt by-laws, appoint committees and otherwise fully organize. Other States whose names are subscribed hereto shall thereafter become parties hereto upon approval of this Compact by legislative action within two (2) years from the date hereof, upon such conditions as may be agreed upon at the time. Provided, however, that with respect to any State whose constitution may require amendment in order to permit legislative approval of the Compact, such State or States shall become parties hereto upon approval of this Compact by legislative action within seven (7) years from the date hereof, upon such conditions as may be agreed upon at the time.

After becoming effective this Compact shall thereafter continue without limitation of time; provided, however, that it may be terminated at any time by unanimous action of the States; and provided further that any State may withdraw from this Compact if such withdrawal is approved by its Legislature, such withdrawal to become effective two (2) years after written notice thereof to the Board accompanied by a certified copy of the requisite legislative action, but such withdrawal shall not relieve the withdrawing State from its obligations hereunder accruing up to the effective date of such withdrawal. Any State so withdrawing shall ipso facto cease to have any claim to or ownership of any of the property held or vested in the Board or of any of the funds of the Board held under the terms of this Compact.

If any State shall at any time become in default in the performance of any of its obligations assumed herein or with respect to any obligation imposed upon said State as authorized by and in compliance with the terms and provisions of this Compact, all rights, privileges and benefits of such defaulting State, its members on the Board and its citizens, shall ipso facto be and become suspended from and after the date of such default. Unless such default shall be remedied and made good within a period of one year immediately following the date of such default this Compact may be terminated with respect to such defaulting State by an affirmative vote of three-fourths (3/4) of the members of the Board (exclusive of the members representing the State in default), from and after which time such State shall cease to be a party to this Compact and shall have no further claim to or ownership of any of the property held by or vested in the Board or to any of the funds of the Board held under the terms of this Compact, but such termination shall in no manner

release such defaulting State from any accrued obligation or otherwise affect this Compact or the rights, duties, privileges or obligations of the remaining States thereunder.

IN WITNESS WHEREOF this Compact has been approved and signed by Governors of the several States, subject to the approval of their respective Legislatures in the manner hereinabove set out, as of the 8th day of February, 1948.

CHAPTER 161. COMPACT FOR EDUCATION

Sec. 161.01. COMPACT ENTERED INTO: TEXT. The Compact for Education is hereby entered into and enacted into law in the form substantially as follows:

COMPACT FOR EDUCATION

Article I. Purpose and Policy

Section A. It is the purpose of this compact to:

1. Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the State and local levels.
2. Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.
3. Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the Nation, so that the executive and legislative branches of State Government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.
4. Facilitate the improvement of State and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

Section B. It is the policy of this compact to encourage and promote local and State initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and States.

Section C. The party States recognize that each of them has an interest in the quality and quantity of education furnished in each of the other States, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the Nation, and because the products and services contributing to the health, welfare and economic advancement of each State are supplied in significant part by persons educated in other States.

Article II. State Defined

As used in this Compact, "State" means a State, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

Article III. The Commission

Section A. The Education Commission of the States, hereinafter called "the Commission," is hereby established. The Commission shall consist of seven members representing each party State. One of such members shall be the Governor or his designated representative, and six shall be appointed by and serve at the pleasure of the Governor, unless the laws of the State otherwise provide. In addition to any other principles or requirements which a State may establish for the appointment and service of its members of the Commission, the guiding principle for the composition of the membership on the Commission from each party State shall be that the members representing such State shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the State Government, higher education, the State education system, local education, lay and professional, public and non-public educational leadership. Of those appointees, one may be the head of a State agency or institution, designated by the Governor, having responsibility for one or more programs of public education. In addition to the members of the Commission representing the party States, there may be not to exceed ten non-voting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations of professional educators or persons concerned with educational administration.

Section B. The members of the Commission shall be entitled to one vote each on the Commission. No action of the Commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the Commission are cast in favor thereof. Action

of the Commission shall be only at a meeting at which a majority of the commissioners are present. The Commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the Commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to Article IV and adoption of the annual report pursuant to Article III(j).

Section C. The Commission shall have a seal.

Section D. The Commission shall elect annually, from among its members, a chairman, who shall be a Governor, a vice chairman and a treasurer. The Commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the Commission, and together with the treasurer and such other personnel as the Commission may deem appropriate shall be bonded in such amount as the Commission shall determine. The executive director shall be secretary.

Section E. Irrespective of the civil service, personnel or other merit system laws of any of the party States, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the Commission, and shall fix the duties and compensation of such personnel. The Commission in its bylaws shall provide for their personnel policies and programs of the Commission.

Section F. The Commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

Section G. The Commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any State, the United States, or any other governmental agency or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the Commission pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this Article shall be reported in the annual report of the

Commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

Section H. The Commission may establish and maintain such facilities as may be necessary for the transacting of its business. The Commission may acquire, hold, and convey real and personal property and any interest therein.

Section I. The Commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The Commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party States.

Section J. The Commission annually shall make to the Governor and legislature of each party State a report covering the activities of the Commission for the preceding year. The Commission may make such additional reports as it may deem desirable.

Article IV. Powers

In addition to authority conferred on the Commission by other provisions of the compact, the Commission shall have authority to:

1. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.
2. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.
3. Develop proposals for adequate financing of education as a whole and at each of its many levels.
4. Conduct or participate in research of the types referred to in this Article in any instance where the Commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.
5. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.
6. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

Article V. Cooperation With Federal Government

Section A. If the laws of the United States specifically so provided, or if administrative provision is made therefor within the Federal Government, the United States may be represented on the Commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to Federal law, and may be drawn from any one or more branches of the Federal Government, but no such representative shall have a vote on the Commission.

Section B. The Commission may provide information and make recommendations to any executive or legislative agency or officer of the Federal Government concerning the common educational policies of the States, and may advise with any such agencies or officers concerning any matter of mutual interest.

Article VI. Committees

Section A. To assist in the expeditious conduct of its business when the full Commission is not meeting, the Commission shall elect a steering committee of thirty members which, subject to the provisions of this compact and consistent with the policies of the Commission, shall be constituted and function as provided in the bylaws of the Commission. One-third of the voting membership of the steering committee shall consist of Governors, and the remainder shall consist of other members of the Commission. A Federal representative on the Commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the Commission shall be elected as follows: fifteen for one year and fifteen for two years. The chairman, vice chairman, and treasurer of the Commission shall be members of the steering committee and, anything in this paragraph to the contrary notwithstanding, shall serve during their continuance in these offices. Vacancies in the steering committee shall not affect its authority to act, but the Commission at its next regularly ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term. No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

Section B. The Commission may establish advisory and technical

committees composed of State, local, and Federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the States concerned, be established to consider any matter of special concern to two or more of the party States.

Section C. The Commission may establish such additional committees as its bylaws may provide.

Article VII. Finance

Section A. The Commission shall advise the Governor or designated officer or officers of each party State of its budget and estimated expenditures for such period as may be required by the laws of that party State. Each of the Commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party States.

Section B. The total amount of appropriation requests under any budget shall be apportioned among the party States. In making such apportionment, the Commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party States.

Section C. The Commission shall not pledge the credit of any party States. The Commission may meet any of its obligations in whole or in part with funds available to it pursuant to Article III(g) of this compact, provided that the Commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the Commission makes use of funds available to it pursuant to Article III(g) thereof, the Commission shall not incur any obligation prior to the allotment of funds by the party States adequate to meet the same.

Section D. The Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the Commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the Commission.

Section E. The accounts of the Commission shall be open at any reasonable time for inspection by duly constituted officers of the party States and by any persons authorized by the Commission.

Section F. Nothing contained herein shall be construed to

prevent Commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the Commission.

Article VIII. Eligible Parties; Entry into and Withdrawal

Section A. This compact shall have as eligible parties all States, Territories, and Possessions of the United States, the District of Columbia, and the Commonwealth of Puerto Rico. In respect of any such jurisdiction not having a Governor, the term "Governor," as used in this compact, shall mean the closest equivalent official of such jurisdiction.

Section B. Any State or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

Section C. Adoption of the compact may be either by enactment thereof or by adherence thereto by the Governor; provided that in the absence of enactment, adherence by the Governor shall be sufficient to make his State a party only until December 31, 1967. During any period when a State is participating in this compact through gubernatorial action, the Governor shall appoint those persons who, in addition to himself, shall serve as the members of the Commission from his State, and shall provide to the Commission an equitable share of the financial support of the Commission from any source available to him.

Section D. Except for a withdrawal effective on December 31, 1967, in accordance with paragraph C of this Article, any party State may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the Governor of the withdrawing State has given notice in writing of the withdrawal to the Governors of all other party States. No withdrawal shall affect any liability already incurred by or chargeable to a party State prior to the time of such withdrawal.

Article IX. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any State or of the United States, or the application thereof to any Government, agency, person or circumstance is held invalid, the

validity of the remainder of this compact and the applicability thereof to any Government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any State participating therein, the compact shall remain in full force and effect as to the State affected as to all severable matters.

3. veterans of the uniformed services, except as provided in Section A; and
4. other U.S. Department of Defense personnel and other federal agency civilian and contract employees not defined as active duty members of the uniformed services.

ARTICLE IV. EDUCATIONAL RECORDS AND ENROLLMENT

A. Unofficial or "hand-carried" education records--In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial education records containing uniform information as

determined by the Interstate Commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records pending validation by the official records, as quickly as possible.

B. Official education records/transcripts--Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state will process and furnish the official education records to the school in the receiving state within ten (10) days or within such time as is reasonably determined under the rules promulgated by the Interstate Commission.

C. Immunizations--Compacting states shall give thirty (30) days from the date of enrollment or within such time that does not exceed thirty (30) days as is reasonably determined under the rules promulgated by the Interstate Commission, for students to obtain any immunization(s) required by the receiving state. For a series of immunizations, initial vaccinations must be obtained within thirty (30) days or within such time that does not exceed thirty (30) days as is reasonably determined under the rules promulgated by the Interstate Commission. A student that has satisfactorily completed the prerequisite grade level in the local education agency in the sending state shall be eligible for enrollment in the next highest grade level in the receiving state, regardless of age. A student transferring after the start of the school year in the receiving state shall enter the school in the receiving state on their validated level from an accredited school in the sending state.

ARTICLE V. PLACEMENT AND ATTENDANCE

A. Course placement--When the student transfers before or during the school year, the receiving state school shall initially honor placement of the student in educational courses based on the student's enrollment in the sending state school and/or educational

assessments conducted at the school in the sending state if the courses are offered. Course placement includes but is not limited to honors, international baccalaureate, advanced placement, vocational, technical, and career pathways courses. Continuing the student's academic program from the previous school and promoting placement in academically and career challenging courses should be paramount when considering placement. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course(s).

B. Educational program placement--The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation/placement in like programs in the sending state. Such programs include, but are not limited to: (1) gifted and talented programs; and (2) English as a second language (ESL). This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

C. Special education services--(1) In compliance with the federal requirements of the Individuals with Disabilities Education Act (IDEA) (20 U.S.C. Section 1400 et seq.), the receiving state shall initially provide comparable services to a student with disabilities based on his/her current Individualized Education Program (IEP); and (2) In compliance with the requirements of Section 504 of the Rehabilitation Act (29 U.S.C.A. Section 794), and with Title II of the Americans with Disabilities Act (42 U.S.C.A. Sections 12131-12165), the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing 504 or Title II Plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

D. Placement flexibility--Local education agency administrative officials shall have flexibility in waiving course/program prerequisites, or other preconditions for placement in courses/programs offered under the jurisdiction of the local education agency.

E. Absence as related to deployment activities--A student whose

parent or legal guardian is an active duty member of the uniformed services, as defined by the compact, and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with his or her parent or legal guardian relative to such leave or deployment of the parent or guardian.

ARTICLE VI. ELIGIBILITY

A. Eligibility for enrollment

1. Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law, shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

2. A local education agency shall be prohibited from charging local tuition to a transitioning military child placed in the care of a non-custodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent.

3. A transitioning military child, placed in the care of a non-custodial parent or other person standing in loco parentis who lives in a jurisdiction other than that of the custodial parent, may continue to attend the school in which he/she was enrolled while residing with the custodial parent.

B. Eligibility for extracurricular participation--State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

ARTICLE VII. GRADUATION

In order to facilitate the on-time graduation of children of military families, states and local education agencies shall incorporate the following procedures:

A. Waiver requirements--Local education agency administrative officials shall waive specific courses required for graduation if similar coursework has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

B. Exit exams--States shall accept: (1) exit or end-of-course exams required for graduation from the sending state; or (2) national norm-referenced achievement tests; or (3) alternative testing, in lieu of testing requirements for graduation in the receiving state. In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in his or her senior year, then the provisions of Article VII, Section C, shall apply.

C. Transfers during senior year--Should a military student transferring at the beginning or during his or her senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with Sections A and B of this article.

The Texas commissioner of education shall adopt a passing standard on one or more national norm-referenced achievement tests for purposes of permitting a student to whom this compact applies to meet that standard as a substitute for completing a specific course or achieving a score on an assessment instrument otherwise required by this state for graduation. Each passing standard must be at least as rigorous as the applicable requirement otherwise imposed by this state for graduation, and be consistent with college readiness standards adopted under Section 28.008, Texas Education Code. Before adopting or revising a passing standard, the commissioner of education must consider any comments submitted by the Texas Higher Education Coordinating Board or the State Board of Education.

A passing standard adopted by the commissioner of education is available only for a student who enrolls in a public school in this state for the first time after completing the ninth grade or who reenrolls in a public school in this state at or above the 10th grade level after an absence of at least two years from the public schools of this state. Each passing standard in effect when a student first enrolls in a public high school in this state remains applicable to the student for the duration of the student's high school enrollment, regardless of any subsequent revision of the standard.

The commissioner of education may adopt rules as necessary to implement the commissioner's duties and authority under this article of the compact.

The Texas Higher Education Coordinating Board shall monitor the postsecondary educational performance in this state of students permitted to graduate in accordance with passing standards adopted by the commissioner of education for purposes of this compact. Based on the educational performance of those students in private and public institutions, the coordinating board shall make recommendations to the commissioner of education regarding appropriate revisions of the passing standards.

ARTICLE VIII. STATE COORDINATION

A. Each member state shall, through the creation of a State Council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies, and military installations concerning the state's participation in, and compliance with, this compact and Interstate Commission activities. While each member state may determine the membership of its own State Council, its membership must include at least: the state superintendent of education, superintendent of a school district with a high concentration of military children, representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the State Council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the State Council.

B. The State Council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

C. The compact commissioner responsible for the administration and management of the state's participation in the compact shall be appointed by the governor or as otherwise determined by each member state.

D. The compact commissioner and the military family education liaison designated herein shall be ex-officio members of the State Council, unless either is already a full voting member of the State Council.

ARTICLE IX. INTERSTATE COMMISSION ON EDUCATIONAL OPPORTUNITY FOR
MILITARY CHILDREN

The member states hereby create the "Interstate Commission on Educational Opportunity for Military Children." The activities of the Interstate Commission are the formation of public policy and are a discretionary state function. The Interstate Commission shall:

A. Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

B. Consist of one Interstate Commission voting representative from each member state who shall be that state's compact commissioner.

1. Each member state represented at a meeting of the Interstate Commission is entitled to one vote.

2. A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission.

3. A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the Interstate Commission, the governor or State Council may delegate voting authority to another person from their state for a specified meeting.

4. The bylaws may provide for meetings of the Interstate Commission to be conducted by telecommunication or electronic communication.

C. Consist of ex-officio, non-voting representatives who are members of interested organizations. Such ex-officio members, as defined in the bylaws, may include but not be limited to, members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the U.S. Department of Defense, the Education Commission of the States, the Interstate Agreement on the Qualification of Educational Personnel, and other interstate compacts affecting the education of children of military members.

D. Meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings.

E. Establish an executive committee, whose members shall

include the officers of the Interstate Commission and such other members of the Interstate Commission as determined by the bylaws. Members of the executive committee shall serve a one year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the Interstate Commission, with the exception of rulemaking, during periods when the Interstate Commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of the compact including enforcement and compliance with the provisions of the compact, its bylaws and rules, and other such duties as deemed necessary. The U.S. Department of Defense shall serve as an ex-officio, non-voting member of the executive committee.

F. Establish bylaws and rules that provide for conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

G. Give public notice of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in the compact. The Interstate Commission and its committees may close a meeting, or portion thereof, where it determines by two-thirds vote that an open meeting would be likely to:

1. Relate solely to the Interstate Commission's internal personnel practices and procedures;
2. Disclose matters specifically exempted from disclosure by federal and state statute;
3. Disclose trade secrets or commercial or financial information which is privileged or confidential;
4. Involve accusing a person of a crime, or formally censuring a person;
5. Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;
6. Disclose investigative records compiled for law enforcement purposes; or
7. Specifically relate to the Interstate Commission's participation in a civil action or other legal proceeding.

H. Shall cause its legal counsel or designee to certify that a meeting may be closed and shall reference each relevant exemptible provision for any meeting, or portion of a meeting, which is closed pursuant to this provision. The Interstate Commission shall keep minutes which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the Interstate Commission.

I. Shall collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection and data exchange, and reporting requirements. Such methods of data collection, exchange, and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

J. Shall create a process that permits military officials, education officials, and parents to inform the Interstate Commission if and when there are alleged violations of the compact or its rules or when issues subject to the jurisdiction of the compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the Interstate Commission or any member state.

ARTICLE X. POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The Interstate Commission shall have the following powers:

A. To provide for dispute resolution among member states.

B. To promulgate rules and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact. The rules shall have the force and effect of statutory law and shall be binding in the compact states to the extent and in the manner provided in this compact.

C. To issue, upon request of a member state, advisory opinions concerning the meaning or interpretation of the interstate compact, its bylaws, rules, and actions.

J. To accept any and all donations and grants of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of it.

K. To lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve or use any property, real, personal, or mixed.

L. To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal or mixed.

M. To establish a budget and make expenditures.

N. To adopt a seal and bylaws governing the management and operation of the Interstate Commission.

O. To report annually to the legislatures, governors, judiciary, and state councils of the member states concerning the activities of the Interstate Commission during the preceding year. Such reports shall also include any recommendations that may have been adopted by the Interstate Commission.

ARTICLE XI. ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

A. The Interstate Commission shall, by a majority of the members present and voting, within 12 months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including, but not limited to:

1. Establishing the fiscal year of the Interstate Commission;
2. Establishing an executive committee, and such other committees as may be necessary;
3. Providing for the establishment of committees and for governing any general or specific delegation of authority or function of the Interstate Commission;
4. Providing reasonable procedures for calling and conducting meetings of the Interstate Commission, and ensuring reasonable notice of each such meeting;
5. Establishing the titles and responsibilities of the officers and staff of the Interstate Commission;
6. Providing a mechanism for concluding the operations of the Interstate Commission and the return of surplus funds that may exist upon the termination of the compact after the payment and reserving of all of its debts and obligations;
7. Providing "start-up" rules for initial administration of the compact.

B. The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice-chairperson, and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice-chairperson, shall preside at all meetings of the Interstate Commission. The officers so elected shall serve without compensation or remuneration from the Interstate Commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and

necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the Interstate Commission.

C. Executive Committee, Officers, and Personnel

1. The executive committee shall have such authority and duties as may be set forth in the bylaws, including but not limited to:

a. Managing the affairs of the Interstate Commission in a manner consistent with the bylaws and purposes of the Interstate Commission;

b. Overseeing an organizational structure within, and appropriate procedures for the Interstate Commission to provide for the creation of rules, operating procedures, and administrative and technical support functions; and

c. Planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the Interstate Commission.

2. The executive committee may, subject to the approval of the Interstate Commission, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation, as the Interstate Commission may deem appropriate. The executive director shall serve as secretary to the Interstate Commission, but shall not be a member of the Interstate Commission. The executive director shall hire and supervise such other persons as may be authorized by the Interstate Commission.

D. The Interstate Commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of Interstate Commission employment, duties, or responsibilities; provided, that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or wilful and wanton misconduct of such person.

1. The liability of the Interstate Commission's executive director and employees or Interstate Commission representatives, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may

not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The Interstate Commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this subsection shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or wilful and wanton misconduct of such person.

2. The Interstate Commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an Interstate Commission representative, shall defend such Interstate Commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or wilful and wanton misconduct on the part of such person.

3. To the extent not covered by the state involved, the member state, or the Interstate Commission, the representatives or employees of the Interstate Commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or wilful and wanton misconduct on the part of such persons.

ARTICLE XII. RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. Rulemaking Authority--The Interstate Commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the Interstate Commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this Act, or the powers granted hereunder, then such an action by the Interstate Commission shall be invalid and have no force or effect.

B. Rulemaking Procedure--Rules shall be made pursuant to a rulemaking process that substantially conforms to the "Model State Administrative Procedure Act," of 1981 Act, Uniform Laws Annotated, Volume 15, page 1 (2000), as amended, as may be appropriate to the operations of the Interstate Commission.

C. Not later than thirty (30) days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the Interstate Commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the Interstate Commission's authority.

D. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any compacting state.

ARTICLE XIII. OVERSIGHT, ENFORCEMENT, AND DISPUTE RESOLUTION

A. Oversight

1. The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

2. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the Interstate Commission.

3. The Interstate Commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the Interstate Commission shall render a judgment or order void as to the Interstate Commission, this compact, or promulgated rules.

B. Default, Technical Assistance, Suspension, and Termination-- If the Interstate Commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the

Interstate Commission shall:

1. Provide written notice to the defaulting state and other member states, of the nature of the default, the means of curing the default and any action taken by the Interstate Commission. The Interstate Commission shall specify the conditions by which the defaulting state must cure its default.

2. Provide remedial training and specific technical assistance regarding the default.

3. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

4. Suspension or termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the Interstate Commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

5. The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination including obligations, the performance of which extends beyond the effective date of suspension or termination.

6. The Interstate Commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

7. The defaulting state may appeal the action of the Interstate Commission by petitioning the U.S. District Court for the District of Columbia or the federal district where the Interstate Commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

C. Dispute Resolution

1. The Interstate Commission shall attempt, upon the request of a member state, to resolve disputes which are subject to

the compact and which may arise among member states and between member and non-member states.

2. The Interstate Commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

D. Enforcement

1. The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

2. The Interstate Commission may, by majority vote of the members, initiate legal action in the U.S. District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its principal offices, to enforce compliance with the provisions of the compact, its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

3. The remedies herein shall not be the exclusive remedies of the Interstate Commission. The Interstate Commission may avail itself of any other remedies available under state law or the regulation of a profession.

ARTICLE XIV. FINANCING OF THE INTERSTATE COMMISSION

A. The Interstate Commission shall pay, or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

B. The Interstate Commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the Interstate Commission and its staff, which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, which shall promulgate a rule binding upon all member states.

C. The Interstate Commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the member states, except by and with the authority of the member state.

D. The Interstate Commission shall keep accurate accounts of

all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws.
